Designer's Note. Built from the real HH3e digitized "Kakophoni Squad" profile (`Emperor's Children.json`) — the Legion's own sonic-weapons specialists, the forerunners of the current 40K Noise Marines. Real stat line: Orchestrator (Sergeant) M7/WS4/BS4/S4/T4/W1/I4/A1/LD10/SAV3+ (no invuln), Chora the same but LD9, both 25pts/model plus a 50pts unit fee (HH3e economy), 5-10 models. Priced at 130/240pts for 5/10, using this project's established ~0.87 squad ratio. The Cacophony is real and canonically named (real Overload(1), Stun(2), and Critical Hit(6+) — Critical Hit folded into Devastating Wounds matching this project's standard rendering, Stun(2) translated as a temporary denial of the [FIGHTS FIRST] ability on the target, and Overload(1) — a weapon-malfunction-on-miscast rule with no clean single-attack analogue — left unbuilt). Sonic shriekers (a real, separately-selectable option) was trimmed from this card for space, matching the simplification already applied to other generic Legion squads' secondary equipment lists. **11e codex update (18 Oct 2026):** power armour T5 like the codex Intercessors and the Chaos Legionaries; Astartes bolt weapons S5 AP-1 (pistols [CLOSE-QUARTERS]) and codex-named weapons on the codex profile; points scaled with Intercessor Squad 80→85.
