The Widowmakers
[CLOSE-QUARTERS] [ASSAULT] [ANTI-VEHICLE 4+]

Mercy and Forgiveness
[LETHAL HITS] [DEVASTATING WOUNDS]. Each time an attack is made with this weapon, a Critical Hit is scored on an unmodified Hit roll of 5+ (instead of 6+).

Core
[FIGHTS FIRST] [DEEP STRIKE]

Fear
Each time an enemy unit within 6" of this model takes a Battle-shock test, that test is taken with a -2 modifier.

Eternal Warrior
Each time damage is allocated to this model, if that damage exceeds 2, that damage is reduced to 2.

A Death Long Foreseen
Once per battle, at the start of the Fight phase, this model can be selected to gain the following until the end of the phase: the [FEEL NO PAIN 5+] ability; add 1 to this model's Attacks characteristic; and this model's melee weapons have the [FIGHTS FIRST] ability (in addition to Core).

Sire of the Night Lords [AURA]
While this model is on the battlefield, friendly Terror Squad units have the [INFILTRATORS] ability.

Warlord
If this model is your Warlord, once per battle, in your Command phase, you can gain 1 Command Point.

> **Designer's Note.** Built directly from the real HH3e digitized "Konrad Curze" profile (`Night Lords.json`). Real stat line: M8/WS7/BS7/S6/T6/W6/I7/A6/LD12/CL10/WP8/IN10/SAV2+/INV4+, 450pts (HH3e economy) — real cost exactly matches Angron's real 450pts, so this card reuses Angron's own real-to-11e translation outright: 350pts, standard T9/W10 baseline (his real T6/W6 doesn't carry the elevated-toughness signature seen on Horus/Perturabo/Mortarion). His real WS7/BS7 are both unusually high, reflecting the Night Haunter's terrifying

combat precision in both melee and at range. Both weapons are real and canonically named: Mercy and Forgiveness (his signature lightning claws, real Critical Hit(5+)/Shred(4+), translated to Lethal Hits plus Devastating Wounds and an explicit "5+ instead of 6+" clause, matching Horus's Worldbreaker treatment) and The Widowmakers (his twin bolt pistols, real Breaching(4+), translated to Anti-vehicle 4+). Fear(2) and Eternal Warrior(2) are both real, Fear using the same "-2 modifier" rendering already established for Angron Transfigured. A Death Long Foreseen is a real, unusually elaborate Gambit — in the source it requires a 5+ roll just to become selectable, then offers three separate Willpower-Check-gated benefits (Feel No Pain(5+), +1 Attacks, and an initiative bonus on Mercy and Forgiveness) — condensed here into one combined once-per-battle activation rather than three independent checks, preserving all three real effects without building a parallel dice-check subsystem. Sire of the Night Lords is real; its Battle-Round-1-scoped "Prime Slots" clause is an army-building mechanic left unbuilt, but its Terror-Squad Infiltrate(12) grant (real, no turn restriction in the source text) is translated directly as an always-on aura while Curze is on the battlefield. **11e codex update (18 Oct 2026):** Primarch toughness +1 and wounds ×1.6 (as GW did for Guilliman and the Lion, T9 W10 → T10 W16); Astartes bolt weapons S5 AP-1 (pistols [CLOSE-QUARTERS]) and codex-named weapons on the codex profile; points scaled with Roboute Guilliman 355→415.
