ABILITIES

Digi-Flamer
[TORRENT] [PISTOL] — auto-hits, which is why it has no BS characteristic.

Patriarch's Claws
[DEVASTATING WOUNDS]

Slow and Purposeful
This model can shoot with weapons that have the [HEAVY] ability without penalty even if it Advanced this turn. However, each time this model is selected to charge, it can only move up to its Movement characteristic in inches (instead of rolling 2D6).

Dark Oratory [AURA]
At the start of your turn, select one friendly Word Bearers unit within 6" of this model. Until the start of your next turn, that unit has the Hatred (Loyalist) ability, or add 2 to that unit's Leadership characteristic (choose one).

Warlord
If this model is your Warlord, once per battle, in your Command phase, you can gain 1 Command Point.

Designer's Note. Built from the real HH3e digitized "Kor Phaeron" profile (`Word Bearers.json`) — Lorgar's foster father and co-architect of the Legion's faith, and a genuinely unusual real stat line for a named HQ: M6/WS5/BS4/S3/T3/W3/I3/A4/LD10/SAV2+/INV5+, 125pts (HH3e economy) — real S3/T3/I3 are all notably below even a standard unmodified Astartes, reflecting his real age and role as an orator and manipulator rather than a warrior. Priced at 95pts using this project's ~0.76 character ratio. Patriarch's Claws is real and canonically named (real Shred(6+), translated to Devastating Wounds); Digi-flamer is real (a Template pistol weapon, translated using this project's standard Template-to-Torrent rendering). Slow and Purposeful is real, translated using this project's standard rendering. Dark Oratory is real and genuinely distinctive — a per-turn choice between granting a nearby Word Bearers unit Hatred(Loyalist) or a Leadership buff — translated directly, preserving the real either/or choice. Real "Jealous Command" (a Wounds/Leadership buff only while he is the sole Unique model in the army) is a niche army-composition-dependent rule and is left unbuilt; Bulky(2) and Unwavering Conviction are both untranslatable fluff/Combat-Resolution rules and are omitted. **11e codex update (18 Oct 2026):** power armour T5

like the codex Intercessors and the Chaos Legionaries; Astartes bolt weapons S5 AP-1 (pistols [CLOSE-QUARTERS]) and codex-named weapons on the codex profile; points scaled with Captain 80→90.
