LORD COMMANDER EIDOLON

185 POINTS

FULGRIM'S ZEALOUS SECOND

LEGIONES ASTARTES • EMPEROR'S CHILDREN • TRAITOR

He mistakes his own zealotry for his Primarch's, and has never once noticed the gap between the two, even as it swallows him whole.

Designer's Note. Built from the real HH3e digitized "Lord Commander Eidolon" profile (`Emperor's Children.json`) — Fulgrim's Lord Commander and the Legion's most fanatical true believer. Real stat line: M12/WS6/BS5/S4/T4/W4/I5/A5/LD10/SAV2+/INV4+, 215pts (HH3e economy), real Type "Infantry (Unique, Command, Antigrav)" — the same jump-capable chassis as this project's other Legion Lord Commander/First Captain HQs, priced at 165pts using the standard ~0.76 ratio. Both weapons are real and canonically named: Glory Aeterna (his signature power weapon, real Critical Hit(6+), translated to Lethal Hits) and Death Scream (a real Template sonic weapon, translated using this project's standard Template-to-Torrent rendering already used for the Destroyer Squad's Hand Flamer; real Breaching(6+) folded in as Anti-vehicle 6+, real Pinning(0) is a negligible morale malus and left untranslated). Impact(A) is real, translated with this project's standard flat Strength-on-charge rendering already established for Night Raptor/Atramentar, regardless of the real rule's own sub-parameter naming. Bulky(2) is untranslatable fluff and omitted; Deep Strike is real and translated directly. **11e codex update (18 Oct 2026):** power armour T5 like the codex Intercessors and the Chaos Legionaries; Astartes bolt weapons S5 AP-1 (pistols [CLOSE-QUARTERS]) and codex-named weapons on the codex profile; points scaled with Captain 80→90.
