ABILITIES

Devotion
[CLOSE-QUARTERS] [ASSAULT] [ANTI-VEHICLE 4+]. Each time this weapon damages a unit, that unit is Battle-shocked.

Illuminarum
Each time an attack is made with this weapon, a Critical Hit is scored on an unmodified Hit roll of 5+ (instead of 6+). Each time this weapon damages a unit, until the end of the battle, subtract 1 from that unit's Strength characteristic (this can only happen once per unit).

Reaping Blow
Each time this model fights, if the enemy unit is greater in number than this model's unit, add 2 to this model's Attacks characteristic.

Eternal Warrior
Each time damage is allocated to this model, if that damage exceeds 2, that damage is reduced to 2.

Hatred (Loyalist)
Each time this model makes an attack that targets a unit with the Loyalist Faction Keyword, you can re-roll the Hit roll.

Sire of the Word Bearers [AURA]
During the first battle round, friendly Word Bearers units automatically pass Battle-shock tests.

Warlord
If this model is your Warlord, once per battle, in your Command phase, you can gain 1 Command Point.

Designer's Note. Built directly from the real HH3e digitized "Lorgar Aurelian" profile (`Word Bearers.json`). Real stat line: M8/WS6/BS6/S6/T6/W6/I6/A5/LD12/CL11/WP10/IN10/SAV2+/INV4+, 445pts (HH3e economy) — the highest real point cost of any Primarch cross-checked in this project so far, edging out even Jaghatai Khan's 440pts, despite sitting in the same standard T6/W6 baseline group as Angron/Lion/Fulgrim/Magnus/Jaghatai rather than the elevated-Toughness group. Priced at 345pts using the same ~0.775 ratio applied to that baseline group. No Ascended/Transfigured form exists in the real data for Lorgar (checked, confirmed absent) — his canonical

daemon-ascension at the Cadian Gate happens well after the Horus Heresy's own timeframe, unlike Angron/Fulgrim/Horus's mid-Heresy transformations, so HH3e (a Heresy-era game) has no equivalent profile to digitize. Both weapons are real and canonically named: Devotion (his graviton pistol, translated using this project's established graviton rendering — Anti-vehicle plus a Battle-shock-on-damage effect, matching the Warsmith's Combi-Grav and Iron Circle Maniple's Graviton Crusher) and Illuminarum (his crozius, real Critical Hit(5+) using the established "5+ instead of 6+" explicit rendering; real Phage(S), a real permanent Strength-drain-on-damage rule, translated directly as a once-per-unit Strength debuff). Reaping Blow(2) is real and translated directly (a real "gains bonus Attacks when outnumbered" rule). Sire of the Word Bearers is real; its actual text is an automatic-Leadership-Check-pass for Word Bearers units restricted to the first Battle Turn plus an unbuildable army-building "Prime Slots" clause — the Battle-shock-immunity portion is translated directly as a first-battle-round aura. Real Unwavering Conviction (a Combat-Resolution-point bonus) and The Power of the Word (an army-building Malefic-unit-joining rule) are both untranslatable Victory-Point/army-composition mechanics and are left unbuilt; Bulky(4) is untranslatable fluff and omitted; Eternal Warrior(2) and Hatred(Loyalist) are both real and translated directly. **11e codex update (18 Oct 2026):** Primarch toughness +1 and wounds ×1.6 (as GW did for Guilliman and the Lion, T9 W10 → T10 W16); Astartes bolt weapons S5 AP-1 (pistols [CLOSE-QUARTERS]) and codex-named weapons on the codex profile; points scaled with Roboute Guilliman 355→415.
