## ABILITIES

**Psyfire Serpenta**
[ASSAULT]

**The Blade of Ahn-nunurta**
[DEVASTATING WOUNDS]. Each time an attack is made with this weapon that targets an enemy Psyker unit, that attack has the [LETHAL HITS] ability and add 1 to the Damage characteristic of that attack.

**Core**
[FIGHTS FIRST] [PSYKER]

**Shrouded**
Each time this model is targeted by a ranged attack, if the attacking model is more than 12" away, subtract 1 from that attack's Hit roll.

**Eternal Warrior**
Each time damage is allocated to this model, if that damage exceeds 2, that damage is reduced to 2.

**Arch-Sorcerer**
Once per battle, in your Shooting phase, this model can be selected to manifest a psychic power instead of shooting. If it does, select one enemy unit within 24" and visible to this model; that unit suffers D6 mortal wounds, or D3 mortal wounds if this model is more than 12" from that unit.

**Sire of the Thousand Sons [AURA]**
During Battle Round 1, each time this model's Arch-Sorcerer ability is used to target an enemy unit that is also within 6" of a friendly Thousand Sons unit, you can re-roll the mortal wounds roll.

**Warlord**
If this model is your Warlord, once per battle, in your Command phase, you can gain 1 Command Point.

## UNIT COMPOSITION

**Designer's Note.** Built directly from the real HH3e digitized "Magnus the Red" profile (`Thousand Sons.json`). Real stat line: M8/WS7/BS6/S6/T6/W6/I6/A6/LD12/CL10/WP11/IN10/SAV2+/INV4+, 470pts (HH3e economy) — real T6/W6 matches the Angron/Lion/Guilliman baseline exactly (unlike Horus's elevated real W7), but the real cost

sits slightly above that trio (470 vs 450-465), and his real WP11 is the single highest Willpower value seen on any Primarch cross-checked so far, matching his psychic-mastery characterization even though WP has no direct 11e stat equivalent. Priced at 365pts — just above the 350-355pt baseline trio, reflecting that modest real premium, well below Horus's 410pts. Both weapons are real and canonically named: Psyfire Serpenta (a psychically-charged pistol, real Psychic/Assault traits, no combat special rules of its own) and The Blade of Ahn-nunurta (real Force(D) — a "Force weapon," classically devastating against enemy Psykers specifically in a psychic duel — translated to Devastating Wounds plus a Psyker-specific Lethal Hits and Damage bonus, rather than a flat buff). Shrouded(6+) and Eternal Warrior(2) are both real and translated directly (Shrouded using the same "worse Hit roll beyond 12"" rendering already established for Dark Angels' Watchers in the Dark). Cult Arcana/Arch-Sorcerer (real: grants all five Prosperine Arcana — Athanaean, Corvidae, Pavoni, Pyrae, Raptora — simultaneously, a genuinely unique multi-discipline mastery no other digitized character has) is translated as a single strong signature spell-attack ability rather than five separate discipline power lists, which would be well outside this project's per-card scope; the real selectable Biomancy/Divination/Pyromancy/Telekinesis/Telepathy Psychic Disciplines menu (an army-list customization layer) was not built for the same reason. Sire of the Thousand Sons is real and structurally mirrors Horus's own Sire ability (a Battle Round 1-only, Faction-scoped buff) — translated here as a psychic-test re-roll rather than a movement bonus, matching this Legion's own identity. **11e codex update (18 Oct 2026):** Primarch toughness +1 and wounds ×1.6 (as GW did for Guilliman and the Lion, T9 W10 → T10 W16); Astartes bolt weapons S5 AP-1 (pistols [CLOSE-QUARTERS]) and codex-named weapons on the codex profile; points scaled with Roboute Guilliman 355→415.
