MALOGHURST THE TWISTED

120 POINTS

EQUERRY TO THE WARMASTER

LEGIONES ASTARTES • SONS OF HORUS • TRAITOR

His body was broken on Davin and never properly healed. His mind was broken somewhere else, and never healed at all. He still stands at Horus's shoulder anyway, because that's what an equerry does.

Slow and Purposeful
This model can shoot with weapons that have the [HEAVY] ability without penalty even if it Advanced this turn. However, each time this model is selected to charge, it can only move up to its Movement characteristic in inches (instead of rolling 2D6).

Broken in Body
Each time an enemy Character model would fight this model in a Challenge (or equivalent duel), this model's Controlling Player can choose for this model to decline, in which case another eligible model must be nominated in its place.

UNIT COMPOSITION

Designer's Note. Built directly from the real HH3e digitized "Maloghurst the Twisted" profile (`Sons of Horus.json`) — the Warmaster's equerry, permanently disfigured on Davin. Real stat line: M6/WS5/BS5/S4/T4/W4/I5/A4/LD10/SAV2+/INV5+, 140pts (HH3e economy), translated to 105pts using this Legion's ~0.76 ratio — the cheapest of the six named Sons of Horus characters built this Legion, matching a real profile built for command and support rather than personal combat prowess (real A4, the lowest Attacks value among the Legion's HQ roster). Power Sword and Banestrike Bolter are both real. Slow and Purposeful is real and translated using this project's standard rendering. Broken in Body is a real, distinctively-worded rule: in the source, his Controlling Player chooses whether he's even eligible to accept a Challenge at all — translated as the ability to decline a Challenge outright rather than simply defending poorly, preserving the real rule's "may simply refuse to fight" character. The real Icon of the Warmaster wargear (a Vanguard/Line Victory-Point scoring buff for his unit) is a mission-scoring mechanic with no clean single-card translation, left unbuilt. **11e codex update (18 Oct 2026):** power armour T5 like the codex Intercessors and the Chaos Legionaries; Astartes bolt weapons S5 AP-1 (pistols [CLOSE-QUARTERS]) and codex-named weapons on the codex profile; points scaled with Captain 80→90.
