Designer's Note. Built directly from the real HH3e digitized "Medusan Immortals Squad" profile (`Iron Hands.json`), the Iron Hands' Troops choice, 35pts real per model, translated using the standard ~0.87 squad ratio to 30pts per model (150/300 for 5/10). Real stat line: M7/WS4/BS4/S4/T4/W1/I4/A1(Immortal)/A2(Sergeant)/LD9/CL10/WP7/IN7/SAV3+/INV5+ — real CL10 is the highest Cool of any Iron Hands Troops squad checked, fitting the Legion's real doctrine of grim, unshakeable discipline. No standalone real Special Rule beyond wargear was found attached to this profile in the source data, so the card presents the squad's standard bolter-and-chainsword loadout. **11e codex update (18 Oct 2026):** power armour T5 like the codex Intercessors and the Chaos Legionaries; Astartes bolt weapons S5 AP-1 (pistols [CLOSE-QUARTERS]) and codex-named weapons on the codex profile; points scaled with Sternguard Veteran Squad 100→105.
