> **Designer's Note.** Built directly from the real HH3e digitized "Mor Deythan Squad" profile (`Raven Guard.json`), an Elites choice, 55pts real per model, translated using the standard ~0.87 squad ratio to 48pts per model (240/480 for 5/10). Real stat line: M7/WS4/BS5/S4/T4/W2/I4/A1/LD8/CL8/WP7/IN7/SAV3+/INV-, Type Infantry (Skirmish) — a real BS5, the highest Ballistic Skill of any generic squad checked in this Legion, matching this unit's canonical role as the Legion's elite reconnaissance marksmen. No dedicated signature weapon was found attached to this profile in the source data beyond a Bolt pistol — this squad's identity rests on its statline and its real Fatal Strike ability rather than a named weapon. Fatal Strike is real and translated directly: once per battle, if the unit held still, a real +2 Ballistic Skill bonus becomes a +1 Hit-roll bonus for the phase, matching the compressed d6-to-hit scale used throughout this project's translations. **11e codex update (18 Oct 2026):** power armour T5 like the codex Intercessors and the Chaos Legionaries; Astartes bolt weapons S5 AP-1 (pistols [CLOSE-QUARTERS]) and codex-named weapons on the codex profile; points scaled with Sternguard Veteran Squad 100→105.
