ABILITIES

Faction — Sons of the Legions

Generic Legiones Astartes (HH) datasheet usable by any of the 18 Legions. Treats as **Oath of Moment** (Loyalist) or **Dark Pact** (Traitor) for 40K interop.

Core

Lone Operative. The Moritat cannot be selected as the target of attacks unless it is the closest visible enemy.

Chain Fire

Each time this model shoots in the Shooting phase, after resolving all of its pistol attacks, it may immediately fire **one** of its pistols a second time at -1 to Hit. If this second shot scores a hit, it may fire **one** additional time at -2 to Hit (recursing to a maximum of 4 total shots from that pistol). The chain fire ends when a shot misses.

Walker (Shooting phase mobility)

In your Shooting phase, after this model has fired all its weapons, it can immediately make a Normal move of up to 6". This move can take it out of LOS of enemies it shot at this turn.

Outcast

This model cannot be your Warlord and cannot take Enhancements. The Legion considers Moritats damned by their methods.

DESIGNER'S NOTE — *Moritat is the Heresy's gunslinger archetype — a Legion outcast who carries two pistols and resolves combat by stacking pistol shots in chain fire. No 10e analog (10e SM doesn't have a paired-pistol character). HB design: PA Marine baseline + Lone Op + paired-pistol loadout (any of plasma, hand flamer, volkite, inferno, archeotech) + the iconic Chain Fire mechanic (after shooting, may fire 1 pistol again at -1, then again at -2, up to 4 total shots — chain ends on miss) + 6" Shooting-phase post-shoot move + Outcast restriction (no Warlord, no Enhancements). 95 pts. Build around mobility + paired plasma pistols for the highest expected damage per turn.* **11E CODEX UPDATE (18 OCT 2026):** *power armour T5 like the codex Intercessors and the Chaos Legionaries; Astartes bolt weapons S5 AP-1 (pistols [CLOSE-QUARTERS]) and codex-named weapons on the codex profile; points scaled with Captain 80→90.*
