Designer's Note. Built directly from the real HH3e digitized "Morlock Terminator Squad" profile (`Iron Hands.json`), an Elites choice, 65pts real per model, translated using the standard ~0.87 squad ratio to 57pts per model (285/570 for 5/10). Real stat line: M6/WS5/BS4/S4/T5/W2/I4/A3/LD9/CL8/WP8/IN7/SAV2+/INV4+ — Ferrus Manus's real personal Terminator-armoured honour guard, matching the canonical Morlock role. No standalone real Special Rule beyond wargear was found attached to this profile in the source data, so the card presents the squad's Combi-bolter and Thunder hammer loadout, matching how other Legions' baseline Terminator squads have been trimmed for card brevity. **11e codex update (18 Oct 2026):** toughness +1 (Terminator armour T6, bikes T6 like codex Outriders); Astartes bolt weapons S5 AP-1 (pistols [CLOSE-QUARTERS]) and codex-named weapons on the codex profile; points scaled with Terminator Squad 160→190.
