## ABILITIES

### Faction — Sons of the Legions

Generic Legiones Astartes (HH) datasheet usable by any of the 18 Legions. Treats as **Oath of Moment** (Loyalist) or **Dark Pact** (Traitor) for 40K interop.

### Core

**Lone Operative**, **Stealth**, **Infiltrators**.

### Assassin's Strike

Each time this model makes a melee attack against an enemy **Character** unit, you re-roll the Hit roll and re-roll the Wound roll. Additionally, melee attacks made by this model against Characters gain [PRECISION].

### Mark of Vendetta

At the start of the first battle round, select one enemy Character unit. For the rest of the battle, this model can ignore Look Out, Sir! when targeting that Character.

### Silent Strike

Once per battle, in the Fight phase before this model fights, you can declare a Silent Strike: until the end of the phase, this model's melee attacks deal D3 mortal wounds in addition to any normal damage when they hit a Character. The Mortificator pours decades of training into a single killing blow.

### Smoke Grenades (Defensive)

Once per battle in your Movement phase, this model can deploy smoke. Until your next Movement phase, attacks against this model suffer -1 to Hit, and this model gains the Benefit of Cover.

**DESIGNER'S NOTE** — *Mortificator is the Legion's anti-Character assassin specialist — Lone Op infiltrator that exists to take out enemy commanders. No 10e analog (canonical 10e Assassins are imperial Officio Assassinorum, not Legion-internal). HB: Marine baseline + M7" (faster than standard Marine) + Lone Op + Stealth + Infiltrators + re-roll Hit/Wound + Precision vs Characters + once-per-battle "Silent Strike" mortal-wound delivery + a Mark-of-Vendetta target that ignores Look Out Sir! + smoke grenades for one-turn defensive bubble. 85 pts. The HQ to pair with Vigilator and Recon Squad for a full anti-Character disruption package.* **11E CODEX UPDATE (18 OCT 2026):** *power armour T5 like the codex Intercessors and the Chaos Legionaries; Astartes bolt weapons S5 AP-1 (pistols [CLOSE-QUARTERS]) and codex-named weapons on the codex profile; points scaled with Captain 80→90.*
