HOMEBREW — HH-ERA (30K)

NÂRIK DREYGUR

100 POINTS

MASTER OF THE IRON CIRCLE

LEGIONES ASTARTES • IRON WARRIORS • TRAITOR

He spends more time with the Domitar-ferrum than with anyone still breathing, and it shows — Dreygur talks to the automata the way another man might talk to old friends.

Designer's Note. Built directly from the real HH3e digitized "Nârik Dreygur" profile (`Iron Warriors.json`) — Master of the Iron Circle, the officer responsible for Perturabo's personal Domitar-ferrum honour guard. Real stat line: M7/WS5/BS5/S4/T4/W3/I5/A4/LD9/SAV2+/INV5+, 115pts (HH3e economy), translated to 90pts. Graviton Gauntlet is real and canonically named (real Shock(Pinned), translated to a Battle-shock-on-damage effect, matching the same weapon family as Perturabo's own Forgebreaker-adjacent relics). Battlesmith(1) and Feel No Pain(5+) are both real; Feel No Pain translated to the core ability directly, Battlesmith folded into his signature Master of Automata ability alongside the real "Master of Automata" wargear buff, tying him directly to the Iron Circle Maniple built alongside him this Legion. **11e codex update (18 Oct 2026):** power armour T5 like the codex Intercessors and the Chaos Legionaries; Astartes bolt weapons S5 AP-1 (pistols [CLOSE-QUARTERS]) and codex-named weapons on the codex profile; points scaled with Captain 80→90.
