Designer's Note. Built directly from the real HH3e digitized "Ofanim Court" profile (`Blood Angels.json`), an Elites choice, 40pts real per model, translated using the standard ~0.87 squad ratio to 35pts per model (105/175 for 3/5). Real stat line: M7/WS5/BS4/S4/T4/W2/I4/A3/LD9/CL8/WP8/IN7/SAV2+, no invulnerable save, real Type Infantry (Champion) — every model in this squad is individually a Champion-tier duelist, unlike a standard sergeant-plus-troopers structure. The real squad size range of 3-5 is kept as-is rather than forced to the standard 5/10 pattern, matching how other Legions' unusual squad-size units (Golden Keshig, Iron Circle Maniple, Fenrisian Wolf Pack) have been handled. The Blade of Judgement is real (real Critical Hit(6+), the 11e-native baseline threshold). **11e codex update (18 Oct 2026):** power armour T5 like the codex Intercessors and the Chaos Legionaries; Astartes bolt weapons S5 AP-1 (pistols [CLOSE-QUARTERS]) and codex-named weapons on the codex profile; points scaled with Intercessor Squad 80→85.
