**Keywords:** INFANTRY, BATTLELINE, PALATINE BLADE SQUAD

**Faction Keywords:** LEGIONES ASTARTES, EMPEROR'S CHILDREN

**Designer's Note.** Built from the real HH3e digitized "Palatine Blade Squad" profile (`Emperor's Children.json`) — the Legion's standard Troops choice, its equivalent of the Tactical/Despoiler squads fielded by other Legions, and a genuinely elite one: real SAV2+ with no invulnerable save on a rank-and-file Troops unit, matching the Legion's obsession with perfect swordsmanship even among its line infantry. Real stat line: Palatine Prefector (Sergeant) M7/WS5/BS4/S4/T4/W2/I4/A3/LD8/SAV2+ (no invuln), Palatine Warrior the same, both 28pts/model plus a 53pts unit fee (HH3e economy), 5-14 models. Priced at 145/265pts for 5/10, in line with other Legions' generic Troops squads. Palatine blade is real and canonically named — the squad's default free Power Weapon (real Breaching(5+), translated to Anti-vehicle 5+; real Duellist's Edge(1) using this project's standard Fights-First-vs-Characters rendering). The real profile's alternate weapon options (Phoenix power spear, Phoenix rapier, and the standard Power Weapon list) were trimmed for card space to the default Palatine blade, matching the simplification already applied to other generic Legion squads. **11e codex update (18 Oct 2026):** power armour T5 like the codex Intercessors and the Chaos Legionaries; Astartes bolt weapons S5 AP-1 (pistols [CLOSE-QUARTERS]) and codex-named weapons on the codex profile; points scaled with Assault Intercessor Squad 75→85.
