Designer's Note. Built directly from the real HH3e digitized "Phalanx Warder-Squad" profile (`Imperial Fists.json`), the Imperial Fists' Troops choice, 38pts real per model, translated using the standard ~0.87 squad ratio to 33pts per model (165/330 for 5/10). Real stat line: M7/WS4/BS4/S4/T4/W1/I4/A2/LD8/CL8/WP7/IN7/SAV2+, no invulnerable save, Type Infantry (Sergeant, Heavy) for the Warder Sergeant. Power axe is the default melee weapon (real Breaching(5+), translated to Anti-vehicle 5+); a Thunder hammer sidegrade exists in the real data and is omitted for card brevity. Phalanx Formation is real — it lets the unit use the real "Shieldwall!" Advanced Reaction for free (without spending a Reaction Point), at the cost of gaining the Pinned Tactical Status afterward if it does — translated as a once-per-battle defensive activation granting Benefit of Cover in exchange for being unable to Advance or Charge the following turn, preserving the real "hold the line, but you're rooted now" trade-off. **11e codex update (18 Oct 2026):** power armour T5 like the codex Intercessors and the Chaos Legionaries; Astartes bolt weapons S5 AP-1 (pistols [CLOSE-QUARTERS]) and codex-named weapons on the codex profile; points scaled with Intercessor Squad 80→85.
