Designer's Note. Built from the real HH3e digitized "Procurators" profile (`Word Bearers.json`) — the Legion's standard Troops choice, its equivalent of the Tactical/Despoiler squads fielded by other Legions. Real stat line: Procurant M7/WS4/BS4/S4/T4/W1/A2/LD8/SAV3+ (no invuln), 15pts/model plus a 25pts unit fee (HH3e economy), 5-15 models. Priced at 85/150pts for 5/10, in line with other Legions' generic Troops squads. Genuinely unusual for a rank-and-file Troops squad: its Sergeant entry, "Procurator", carries a real Narthecium and Medic(X) rule — a battlefield-medic role folded directly into the line squad's own leader rather than a separate Apothecary unit — translated here as a chance to prevent a model's death outright, matching the established "death-save" idiom used for Hibou Khan's own Seeker of Atonement. The real profile's full weapon-options list (special/heavy weapon swaps, a Flesh Harvester relic weapon, a heavy chainsword) was trimmed for card space to the core chainsword/bolt pistol loadout, matching the simplification already applied to other generic Legion squads. **11e codex update (18 Oct 2026):** power armour T5 like the codex Intercessors and the Chaos Legionaries; Astartes bolt weapons S5 AP-1 (pistols [CLOSE-QUARTERS]) and codex-named weapons on the codex profile; points scaled with Intercessor Squad 80→85.
