PRIMARCH OF THE VIITH LEGION, THE IMPERIAL FISTS — THE PRAETORIAN OF TERRA

LEGIONES ASTARTES • IMPERIAL FISTS • LOYALIST

He does not build walls because he fears what is outside them. He builds walls because a line, once drawn, is something worth being right about.

ABILITIES

The Voice of Terra
[ASSAULT] [ANTI-VEHICLE 5+]

Storm's Teeth
Each time an attack is made with this weapon, you can re-roll the Wound roll. Each time this model fights, if the enemy unit is greater in number than this model's unit, add 2 to this model's Attacks characteristic.

Bulwark of the Imperium
Once per battle, when this model is chosen as the target of an attack, you can use this ability: until the end of the phase, each time a Wound roll is made for that attack, an unmodified result of 4 or less always fails, regardless of that attack's Strength and this model's Toughness characteristics.

Sire of the Imperial Fists [AURA]
During the first battle round, friendly Imperial Fists Infantry units have the Benefit of Cover while they are within your own deployment zone.

Warlord
If this model is your Warlord, once per battle, in your Command phase, you can gain 1 Command Point.

> **Designer's Note.** Built directly from the real HH3e digitized "Rogal Dorn" profile (`Imperial Fists.json`). Real stat line: M8/WS7/BS6/S6/T6/W6/I6/A6/LD12/CL10/WP10/IN10/SAV2+/INV4+, 435pts (HH3e economy) — his real T6 sits in the standard baseline Primarch group (Angron/Lion/Fulgrim/Magnus/Jaghatai/Lorgar/Leman Russ) rather than the elevated-Toughness group (Perturabo/Mortarion), so this card uses the same ~0.775 standard translation ratio: 335pts, standard T9/W10, no bump. Both weapons are real and canonically named: Storm's Teeth (real Shred(4+), translated to a Wound re-roll; real Reaping Blow(2), translated directly with its full value) and The Voice of Terra, his signature bolter (real Breaching(5+), translated to Anti-vehicle 5+). Bulwark of the Imperium is a real, distinctively worded Gambit — while active, Wound Tests against him fail outright on an unmodified 1-4, meaning only a 5 or 6 can ever wound him regardless of the attacker's Strength — translated here as a once-per-battle activation preserving that same "nearly unkillable in the moment" fantasy. Sire of the Imperial Fists is real; its actual text is a Force-Organisation Prime-Slots clause (unbuildable in 11e, omitted) plus a genuine Turn-1 Cover Save

> grant for Imperial Fists Infantry within the deployment zone — the latter translated directly as a first-battle-round aura using 11e's Benefit of Cover. **11e codex update (18 Oct 2026):** Primarch toughness +1 and wounds ×1.6 (as GW did for Guilliman and the Lion, T9 W10 → T10 W16); Astartes bolt weapons S5 AP-1 (pistols [CLOSE-QUARTERS]) and codex-named weapons on the codex profile; points scaled with Roboute Guilliman 355→415.
