HOMEBREW — HH-ERA (30K)

SANGUINIUS

440 POINTS

PRIMARCH OF THE IXTH LEGION, THE BLOOD ANGELS — THE GREAT ANGEL

LEGIONES ASTARTES • BLOOD ANGELS • LOYALIST

Something in him already knows how this ends. It has never once made him hesitate to fly toward it.

Moonsilver Blade	Melee	6	2+	6	-1	2

ABILITIES

Infernus
[ASSAULT] [ONE SHOT] [MELTA 2]

The Blade Encarmine
Each time an attack is made with this weapon, a Critical Hit is scored on an unmodified Hit roll of 5+ (instead of 6+). Each time this model fights, if it made a Charge move this turn, add 1 to this model's Attacks characteristic.

Spear of Telesto
[ANTI-VEHICLE 3+]. Each time an attack made with this weapon scores an unmodified Hit roll of 5+ against a Vehicle unit, until the start of your next turn, subtract 1 from Hit rolls for that unit's attacks.

Moonsilver Blade
Each time this model fights, it has the [FIGHTS FIRST] ability against Character units.

Angelic Descent
Each time this model fights, if it made a Charge move this turn, this model's melee weapons have the [ANTI-VEHICLE 4+] ability when targeting Monster or Vehicle units.

Sire of the Blood Angels [AURA]
Each time a friendly Blood Angels unit with the [DEEP STRIKE] ability is set up on the battlefield from Strategic Reserves, it can arrive during the first battle round even if it would not otherwise be eligible to do so.

Warlord
If this model is your Warlord, once per battle, in your Command phase, you can gain 1 Command Point.

UNIT COMPOSITION

1 Sanguinius model. Equipped with: 1 Infernus; 1 The Blade Encarmine; or 1 Infernus; 1 Spear of Telesto; 1 Moonsilver Blade.

Keywords: INFANTRY, CHARACTER, EPIC HERO, PRIMARCH, WARLORD, FLY, SANGUINIUS

Faction Keywords: LEGIONES ASTARTES, BLOOD ANGELS

Designer's Note. Built directly from the real HH3e digitized "Sanguinius" profile (`Blood Angels.json`). Real stat line: M16/WS8/BS6/S6/T6/W6/I6/A6/LD12/CL10/WP10/IN10/SAV2+/INV4+, 485pts (HH3e economy) — his real M16 is the fastest Movement of any Primarch checked in this project, matching his real Type "Paragon (Unique, Antigrav)" (translated as the Fly keyword). His real T6 sits in the standard baseline Primarch group, so this card

uses the standard ~0.775 translation ratio: 375pts, standard T9/W10, no bump. Infernus is his real signature meltagun pistol (real Melta(12), translated using 11e's own Melta X ability; real Limited(1), translated to One Shot). The real data presents two genuine loadout choices: The Blade Encarmine alone (real Critical Hit(5+), using the established elevated-Critical-Hit rendering; real Impact(AM), translated to a Charge-triggered Attacks bonus) or the Spear of Telesto paired with the Moonsilver Blade (real Armourbane on the Spear, translated to Anti-vehicle 3+; real Shock(Suppressed), translated to a Hit-roll penalty on damaged Vehicles; real Duellist's Edge(1) on the Blade, translated to the standard conditional Fights-First-vs-Characters). Angelic Descent is a real Gambit — after a successful Charge, he gains a Focus Roll bonus equal to the enemy's Bulky(X) value in a Challenge — translated as bonus anti-large-target penetration after charging. Sire of the Blood Angels is real; its actual text is a Force-Organisation Prime-Slots clause (unbuildable in 11e, omitted) plus a genuine Reserves-roll guarantee for Deep-Strike-capable Blood Angels units, translated directly as a first-battle-round arrival guarantee. **11e codex update (18 Oct 2026):** Primarch toughness +1 and wounds ×1.6 (as GW did for Guilliman and the Lion, T9 W10 → T10 W16); Astartes bolt weapons S5 AP-1 (pistols [CLOSE-QUARTERS]) and codex-named weapons on the codex profile; points scaled with Roboute Guilliman 355→415.
