LEGIONES ASTARTES • NIGHT LORDS • TRAITOR

ABILITIES

Bolt Pistol
[CLOSE-QUARTERS]

Night's Whisper
[LETHAL HITS] [DEVASTATING WOUNDS]

Fear
Each time an enemy unit within 6" of this model takes a Battle-shock test, that test is taken with a -2 modifier.

Precision
[PRECISION]

Dirty Fighter
Once per battle, at the start of the Fight phase, this model can be selected to fight with 1 melee weapon before any other models are chosen to fight this phase (this does not stop this model fighting again in its normal position in the Fight phase sequence).

Dark Dreams
Each time damage is allocated to this model, roll one D6: on a 5+, until the start of your next turn this model has the [FEEL NO PAIN 5+] ability.

Sworn Loyalty [AURA]
While this model is on the battlefield, each time a friendly Atramentar Flay-clade unit takes a Battle-shock test, that test can be taken using this model's Leadership characteristic instead of its own.

Warlord
If this model is your Warlord, once per battle, in your Command phase, you can gain 1 Command Point.

> **Designer's Note.** Built directly from the real HH3e digitized "Sevatar" profile (`Night Lords.json`) — the VIII Legion's First Captain, its most infamous Terror Squad commander and the source of most of the Legion's surviving black humour. Real stat line: M7/WS7/BS5/S4/T4/W4/I5/A5/LD10/CL9/WP8/IN8/SAV2+/INV4+, 220pts (HH3e economy) — priced at 165pts using roughly the same ~0.76 real-to-11e ratio applied to this project's other Legion First Captains (Abaddon, Loken). Night's Whisper is his real, canonically named signature chainsword (real

> Critical Hit(6+) plus Shred(5+), translated to Lethal Hits plus Devastating Wounds, matching this project's standard rendering for a weapon carrying both rules at once). Fear(2) and Precision(4+) are both real; Precision translates directly to the 11e core [PRECISION] ability rather than a bespoke roll-threshold, since 11e's version is already binary. Dirty Fighter is a real, unusually worded Gambit — in the source it can only be selected during a Challenge and grants a single out-of-sequence attack — translated here as a once-per-battle extra activation at the start of the Fight phase, preserving the "attack before everyone else" effect without requiring 11e's Fight phase to model HH3e's Challenge sub-system. Dark Dreams is real and unusually flavourful (a Feel No Pain roll disguised as a damage-mitigation table with a irrelevant downside on a 1) — condensed here to just its beneficial half, since the real "loses Command Sub-Type" clause has no clean 11e analogue. Sworn Loyalty is real and ties Sevatar directly to the Atramentar Flay-clade built alongside him this Legion, translated as a Leadership-sharing aura for that unit's Battle-shock tests specifically, rather than a generalized army-wide buff. **11e codex update (18 Oct 2026):** power armour T5 like the codex Intercessors and the Chaos Legionaries; Astartes bolt weapons S5 AP-1 (pistols [CLOSE-QUARTERS]) and codex-named weapons on the codex profile; points scaled with Captain 80→90.
