FIRST CAPTAIN OF THE IMPERIAL FISTS

LEGIONES ASTARTES • IMPERIAL FISTS • LOYALIST

He does not go looking for the biggest fight in the room. He goes looking for the one that needs to end first, and it is usually the same fight.

[FIGHTS FIRST]. Each time this model fights, it has the [LETHAL HITS] ability against Character units.

Death's Champion
Once per battle, at the start of the Fight phase, this model can be selected: for the rest of the phase, each time an attack is made with this model's melee weapon, a Critical Hit is scored on an unmodified Hit roll of 5+ (instead of 6+).

Slayer of Kings
Each time this model is chosen to fight, it must be chosen to fight against an enemy Character unit within Engagement Range, if any are eligible, in preference to any other eligible unit.

> **Designer's Note.** Built directly from the real HH3e digitized "Sigismund" profile (`Imperial Fists.json`), 250pts real cost, translated using the standard ~0.76 named-character ratio to 190pts. Real stat line: M7/WS7/BS4/S4/T4/W4/I5/A5/LD10/CL9/WP9/IN9/SAV2+/INV4+. His signature weapon, The Black Sword, is real and carries a real Duellist's Edge(2) — the doubled value already established (Jaghatai Khan's White Tiger Dao) as translating to an unconditional Fights First plus Lethal Hits against Characters rather than the standard conditional-on-Characters-only Fights First. Real Critical Hit(6+) on the same weapon is the baseline threshold 11e already uses natively and needed no separate translation. Death's Champion is a real Gambit that elevates his Critical Hit threshold to 5+ for a Strike Step — translated using this project's established elevated-Critical-Hit rendering as a once-per-battle Fight-phase activation. Slayer of Kings is real — he must always be declared the Challenger and can choose his opponent — translated as a rule forcing him to seek out enemy Characters to fight whenever eligible, preserving the "duty-bound duelist" fantasy without requiring 11e's Challenge sub-system. **11e codex update (18 Oct 2026):** power armour T5 like the codex Intercessors and the Chaos Legionaries; Astartes bolt weapons S5 AP-1 (pistols [CLOSE-QUARTERS]) and codex-named weapons on the codex profile; points scaled with Captain 80→90.
