> **Designer's Note.** Built directly from the real HH3e digitized "Speaker of the Dead" profile (`Space Wolves.json`), the Space Wolves' Chaplain equivalent, 100pts real cost, translated using the standard ~0.76 named-character ratio to 76pts. Real stat line: M7/WS5/BS4/S4/T4/W3/I5/A4/LD9/CL10/WP8/IN8/SAV2+/INV5+ — his real CL10 (Cool) is the highest of any Space Wolves character checked, fitting his role presiding over the Legion's death-rites. His Crozius arcanum is real (real Breaching(6+), translated to Anti-vehicle 6+). No distinct real Special Rule beyond his wargear was found attached to this profile in the source data, so Litany of the Death Wolf is an original Faction-appropriate Chaplain-style melee aura built to fill that slot, following the same precedent established for Death Guard and Word Bearers when a real profile lacks a standalone named ability. **11e codex update (18 Oct 2026):** power armour T5 like the codex Intercessors and the Chaos Legionaries; Astartes bolt weapons S5 AP-1 (pistols [CLOSE-QUARTERS]) and codex-named weapons on the codex profile; points scaled with Captain 80→90.
