ABILITIES

Faction — Sons of the Legions

This unit is a generic Legiones Astartes (Horus Heresy era) datasheet usable by any of the 18 Legions. Detachment buffs and Legion-specific stratagems apply per the Legion this unit is fielded as (Loyalist or Traitor). When fielded in a 40K list, treat as having the **Oath of Moment** faction ability if Loyalist; **Dark Pact** if Traitor.

Specialist Doctrine

Each time a model in this unit makes a ranged attack with the chosen squad weapon, you can re-roll one Hit roll and one Wound roll. The whole squad is drilled in the use of a single weapon-type to lethal expertise.

Coordinated Volley

If every model in this unit fires its squad weapon in the same Shooting phase, until the end of that phase the squad weapons gain [SUSTAINED HITS 1].

DESIGNER'S NOTE — *Tactical Support Squads embody the Heresy doctrine of fielding entire squads equipped with a single specialist weapon — ten meltaguns, ten plasma guns, ten volkite chargers, etc. 10e canonical breaks this into specialised units (Eradicators = melta, Hellblasters = plasma, Sternguard with one melta), but the HH version is more flexible: ANY of seven weapon types for the whole squad. HB design: standard Tactical Squad statline + a "re-roll one Hit and one Wound per phase" bonus + Sustained Hits 1 if every model fires. Modular pricing in the footnote handles weapon variation. 130 pts for 5 with meltaguns sits between canonical Eradicators (3 meltas, 100 pts) and a Sternguard squad — flexibility traded for a higher entry cost.* **11E CODEX UPDATE (18 OCT 2026):** *power armour T5 like the codex Intercessors and the Chaos Legionaries; Astartes bolt weapons S5 AP-1 (pistols [CLOSE-QUARTERS]) and codex-named weapons on the codex profile; points scaled with Intercessor Squad 80→85.*
