Faction Keywords: LEGIONES ASTARTES, IMPERIAL FISTS

Designer's Note. Built directly from the real HH3e digitized "Templar Brethren" profile (`Imperial Fists.json`), a Heavy Assault choice, 27pts real per model plus a 52pts real Templar Champion sergeant, translated using the standard ~0.87 squad ratio to 24pts and 45pts respectively (141/261 for 5/10). Real stat line: M7/WS5/BS4/S4/T4/W2/I4/A3(Brethren)/A4(Champion)/LD8(9 for the Champion)/CL8/WP8/IN8/SAV2+, no invulnerable save — a real Wounds-2 elite line squad, tougher than the standard Grey-Slayer-tier Troops archetype. Templar Assault is real, granting an extended disembarkation Set-up Move distance specifically after leaving a Model with the Assault Vehicle Special Rule — translated directly using 11e's own Assault Vehicle ability keyword. **11e codex update (18 Oct 2026):** power armour T5 like the codex Intercessors and the Chaos Legionaries; Astartes bolt weapons S5 AP-1 (pistols [CLOSE-QUARTERS]) and codex-named weapons on the codex profile; points scaled with Sternguard Veteran Squad 100→105.
