Designer's Note. Built directly from the real HH3e digitized "The Angel's Tears" profile (`Blood Angels.json`), the Blood Angels' Troops choice, 20pts real per model, translated using the standard ~0.87 squad ratio to 17pts per model (85/170 for 5/10). Real stat line: M12/WS4/BS4/S4/T4/W1/I4/A2(Erelim)/A3(Arch-Erelim)/LD7/CL7/WP7/IN7/SAV3+, no invulnerable save, real Type Infantry (Antigrav) — a jump-pack Troops squad, unusual for a Legion Battleline choice, translated to the Fly keyword. No standalone real Special Rule was found attached to this profile in the source data beyond its jump-pack mobility, so the card is presented plainly as a fast-moving line squad. **11e codex update (18 Oct 2026):** power armour T5 like the codex Intercessors and the Chaos Legionaries; Astartes bolt weapons S5 AP-1 (pistols [CLOSE-QUARTERS]) and codex-named weapons on the codex profile; points scaled with Vanguard Veteran Squad with Jump Packs 105→110.
