VHEREN ASHURHADDON

175
POINTS

CAPTAIN, JUSTAERIN TERMINATOR CADRE

LEGIONES ASTARTES • SONS OF HORUS • TRAITOR

The finest swordsman in a Legion that produces nothing but fine swordsmen — Ashurhaddon's blade moves before the thought that should have preceded it, which is exactly the point.

Designer's Note. Built directly from the real HH3e digitized "Vheren Ashurhaddon" profile (`Sons of Horus.json`). Real stat line: M7/WS7/BS5/S4/T4/W4/I5/A5/LD10/SAV2+/INV4+, 205pts (HH3e economy) — the same "Command" HQ chassis as Loken/Little Horus/Tybalt Marr, except a real WS7 instead of WS6, the single fastest sword-arm in this Legion's HQ roster. Translated to 155pts using this Legion's ~0.76 ratio, the most expensive of the four sword-captains, matching his real profile. The Axe Serpentis carries a real IM+1 initiative bonus in the source (unusual — the other named weapons in this Legion all carry IM=I, unmodified), translated here as the [FIGHTS FIRST] Core ability rather than folding it quietly into the weapon profile, since it's a genuinely distinguishing trait among an otherwise near-identical quartet of captains. Banestrike Fusillade is a real, separately-named ranged weapon unique to him among the four (the others all carry a plain bolt pistol) — a real Pistol/Breaching(6+) profile, translated to Anti-vehicle 6+ with the Assault/Pistol traits preserved. **11e codex update (18 Oct 2026):** power armour T5 like the codex Intercessors and the Chaos Legionaries; Astartes bolt weapons S5 AP-1 (pistols [CLOSE-QUARTERS]) and codex-named weapons on the codex profile; points scaled with Captain 80→90.
