> **Designer's Note.** Built directly from the real HH3e digitized "Wolf-kin of Russ" profile (`Space Wolves.json`), 100pts real for the fixed pair, translated using the standard ~0.87 squad ratio to 85pts. Real stat line for both Freki and Geri: M10/S5/T5/W4/LD8/CL5/WP5/IN3/SAV5+, no invulnerable save, no Ballistic Skill — a real fixed-size two-model unit rather than a squad with a size range. Freki (real WS5/A4) and Geri (real WS7/A3) are both real and individually named, and are kept distinct here rather than averaged into one profile. Their shared melee weapon, Tooth & Claw, is real (real Breaching(6+), translated to Anti-vehicle 6+). The real Special Rule restricting the unit to being joined only by Leman Russ is translated directly using 11e's Attached unit terminology. **11e codex update (18 Oct 2026):** statline unchanged; Astartes bolt weapons S5 AP-1 (pistols [CLOSE-QUARTERS]) and codex-named weapons on the codex profile; points scaled with own statline (beast) 1→1.
