DETACHMENT — HORUS HERESY (30K)

GRIM ENDURANCE

DEATH GUARD (HH, TRAITOR) | WARHAMMER 40,000 | 11TH EDITION

Grim Endurance is a fully homebrew Detachment for the Death Guard (XIV Legion) faction — a Horus Heresy-era Traitor Legion detachment adapted to the Warhammer 40,000 11th-edition Detachment framework, built from the real HH3e Death Guard Rite of War data. Formatted to match the No Figure Left Behind Combat Patrol archive.

ARMY RULE

REMORSELESS ADVANCE
A Death Guard company does not need to choose between moving and shooting straight. Each time a model in a friendly Death Guard unit makes a ranged attack with a weapon that has the [HEAVY] ability, that attack still gains the benefit of [HEAVY] even if the unit made a Normal Move this turn (instead of only if it Remained Stationary).

DETACHMENT RULE

GRIM ENDURANCE
Detachment Points: To use this detachment you must spend 1 DP.

Something in Barbaran flesh simply refuses to stop working, long after any reasonable body would have given out. Friendly Death Guard Infantry units have the [FEEL NO PAIN 6+] ability.

FORCE DISPOSITIONS
This detachment has access to the following Force Disposition: Take and Hold.

DETACHMENT COMPOSITION

Included: All homebrew Death Guard (HH) roster units (Mortarion, Calas Typhon, Deathshroud Terminator Squad, Grave Warden Terminator Squad, Mortus Poisoner Squad), and any homebrew Legiones Astartes (HH) unit from the generic Space Marines (HH) roster given the Death Guard Trait. Nathaniel Garro may be included with either the Death Guard or Knights Errant keyword.

Excluded: Any other Legion's Primarch or named characters. Non-Legiones-Astartes allies, per standard HH3e Legion-purity convention.

ENHANCEMENTS

BARBARAN HIDE — *Character model only*
Skin toughened by a world that tried to kill everything born on it. The bearer has the [FEEL NO PAIN 5+] ability (instead of the detachment's 6+).

CHEM-TREATED WARGEAR — *Character model only*
Every blade and barrel in the bearer's kit has been soaked in something the Apothecarion would rather not name. Ranged and melee weapons equipped by the bearer have the [LETHAL HITS] ability.

UNBREAKABLE MARCH — *Unit only*
The bearer's unit cannot be selected to Fall Back, and ignores modifiers to its Movement characteristic. In addition, the bearer's unit automatically passes Battle-shock tests.

THE LONG PATIENCE — *Unit only*
Once per battle, at the start of any phase, the bearer's unit regains up to D3+3 lost wounds, or one destroyed model is returned to the unit with 1 wound remaining.

STRATAGEMS

BARBARAN ENDURANCE **2CP**
Death Guard — Strategic Ploy Stratagem

When: Your opponent's Shooting phase, just after they select a friendly Death Guard Infantry unit (that is not a Vehicle) as the target of a ranged attack.

Target: That unit.

Effect: Remove that unit from Battle-shock if it is currently under that effect. Until the end of the phase, that unit has the [FEEL NO PAIN 5+] ability and automatically passes Battle-shock tests. Use this Stratagem only once per battle.

TOUGHENED BY THE MARCH **1CP**
Death Guard — Battle Tactic Stratagem

When: Fight phase, just before a friendly Death Guard unit is selected to fight.

Target: That unit.

Effect: Until the end of the phase, add 2 to the Toughness characteristic of models in that unit.

CHEMICAL PAYLOAD **1CP**
Death Guard — Battle Tactic Stratagem

When: Your Shooting phase, just after a friendly Death Guard unit is selected to shoot.

Target: That unit.

Effect: Until the end of the phase, each time a model in that unit makes a ranged attack, an unmodified Wound roll of 3+ always scores a wound, regardless of the target's Toughness characteristic.

GRAVE DISCIPLINE **1CP**
Death Guard — Strategic Ploy Stratagem

When: End of any phase, if a friendly Death Guard unit lost one or more models earlier this phase.

Target: That unit.

Effect: That unit automatically passes Battle-shock tests until the end of the battle round.

THE LONG MARCH **1CP**
Death Guard — Strategic Ploy Stratagem

When: Your Movement phase, just before a friendly Death Guard unit moves.

Target: That unit.

Effect: Until the end of the phase, that unit is treated as not moving through Difficult Terrain for any purpose.

NO BODY LEFT BEHIND **2CP**
Death Guard — Epic Deed Stratagem

When: Fight phase, just after a friendly Death Guard Character model is destroyed, before it is removed from play.

Target: That model.

Effect: If that model has not already fought this phase, it can fight once, using its normal characteristics, before being removed as a casualty.

DESIGNER'S NOTE

Homebrew — HH3e (2026) Death Guard Legion Rite of War → 11e conversion. Built from the real HH3e Rite of War data in `Death Guard.json`. Unlike World Eaters, Death Guard only has one real rite — Legiones Astartes Death Guard — with three named pieces: Legion Tactica "Remorseless Advance" (real and directly portable, used here as the Faction Ability), a Gambit (translated here as Toughened by the March), and Advanced Reaction "Barbaran Endurance" (translated directly into a Stratagem). Since the real data doesn't promote any one piece into a full army-wide Detachment Rule, Grim Endurance (a baseline Feel No Pain 6+ for Death Guard Infantry) was built as an original centerpiece capturing the Legion's "keeps marching, keeps standing" identity, with the real Barbaran Endurance kept as its own stronger Stratagem rather than folded in and diluted.
