DETACHMENT — HORUS HERESY (30K)

BESTIAL SAVAGERY

SPACE WOLVES (HH, LOYALIST) | WARHAMMER 40,000 | 11TH EDITION

Bestial Savagery is a fully homebrew Detachment for the Space Wolves (VI Legion) faction — a Horus Heresy-era Loyalist Legion detachment adapted to the Warhammer 40,000 11th-edition Detachment framework, built from the real HH3e Space Wolves Rite of War data. Formatted to match the No Figure Left Behind Combat Patrol archive.

FACTION ABILITY

THE HUNTER'S STRIKE
The pack does not wait for the horn before it moves. Each time a unit with this ability is set up on the battlefield from Strategic Reserves or as part of a Deep Strike ability, it can be set up as though the relevant minimum distance from enemy models were 2" less than normal (to a minimum of 3").

DETACHMENT RULE

BESTIAL SAVAGERY
Detachment Points: To use this detachment you must spend 1 DP.

Wound them, and they only close the distance faster. Once per battle, each time an enemy unit is selected to shoot a friendly Space Wolves unit, after that attack has been resolved, if that Space Wolves unit was not destroyed you can select it to use this Detachment Rule. If you do, until the end of the phase that unit has the [FEEL NO PAIN 5+] ability, and it can then make a Normal Move of up to 6", to as close as possible to the closest enemy unit (it cannot be moved within Engagement Range of any enemy units as a result of this move). If, after this move, that Space Wolves unit is within Engagement Range of one or more enemy units, in your following Charge phase it can be selected to declare a charge against those units without needing to make a Charge move or Charge roll.

FORCE DISPOSITIONS
This detachment has access to the following Force Disposition: Reconnaissance.

DETACHMENT COMPOSITION

Included: All homebrew Space Wolves (HH) roster units (Leman Russ, Geigor Fell-Hand, Hvarl Red-Blade, Deathsworn Pack, Grey Slayer Pack, Varagyr Wolf Guard Terminators, Wolf-kin of Russ, Jorlund Hunter Pack, Fenrisian Wolf Pack, Caster of Runes, Speaker of the Dead, Inductii Squad), and any homebrew Legiones Astartes (HH) unit from the generic Space Marines (HH) roster given the Space Wolves Trait.

Excluded: Any other Legion's Primarch or named characters. Non-Legiones-Astartes allies, per standard HH3e Legion-purity convention.

ENHANCEMENTS

PELT OF THE FENRISIAN WOLF — *Character model only*
The bearer has a 5+ invulnerable save. If the bearer already has an invulnerable save, add 1 to its Invulnerable Save characteristic instead (to a maximum of a 3+ invulnerable save).

RUNE-ETCHED WARGEAR — *Character model only*
Each time an attack targets the bearer's unit, worsen the Armour Penetration characteristic of that attack by 1.

HOWL OF THE PACK — *Character model only*
While the bearer is leading a unit, each time a model in that unit is destroyed in the Fight phase, until the end of the phase, add 1 to the Attacks characteristic of the bearer's melee weapons.

TROPHY OF THE HUNT — *Character model only*
Each time the bearer destroys the last model in an enemy unit in the Fight phase, until the end of the battle, add 1 to the bearer's Attacks characteristic (to a maximum of +3).

STRATAGEMS

A SAGA WOVEN OF GLORY **1CP**
Space Wolves — Epic Deed Stratagem
When: Fight phase, just after a friendly Space Wolves Character unit destroys the last model in an enemy unit.
Target: That Character's unit.
Effect: Until the end of the Fight phase, add 1 to the Attacks characteristic of models in that unit.

RUSH THE LINE **1CP**
Space Wolves — Strategic Ploy Stratagem
When: Your Movement phase.
Target: One friendly Space Wolves unit.
Effect: That unit is eligible to declare a charge this turn even though it Advanced.

RUNIC WARD **1CP**
Space Wolves — Battle Tactic Stratagem
When: Any phase, just after a friendly Space Wolves Psyker unit is selected as the target of an attack, a Psychic Action, or a Stratagem used by your opponent.
Target: That unit.
Effect: Roll one D6, adding 1 to the result if that unit is within 6" of a friendly Space Wolves Caster of Runes model: on a 4+, that attack, Psychic Action, or Stratagem has no effect.

NO PREY ESCAPES **1CP**
Space Wolves — Battle Tactic Stratagem
When: Fight phase, just before a friendly Space Wolves Character unit fights.
Target: That unit.
Effect: Until the end of the phase, that unit's melee weapons have the [LETHAL HITS] ability, and that unit cannot be destroyed as a result of a Fall Back or similar effect until it has made all of its attacks.

SAGA OF THE WULFEN **2CP**
Space Wolves — Epic Deed Stratagem
When: Your Command phase.
Target: One friendly Space Wolves unit below its Starting Strength.
Effect: Until your next Command phase, each time a model in that unit makes a melee attack, an unmodified Hit roll of 6 automatically wounds the target, regardless of that attack's Strength and the target's Toughness characteristics.

FEAST OF THE FALLEN **2CP**
Space Wolves — Strategic Ploy Stratagem
When: Your Command phase.
Target: One friendly Space Wolves unit.
Effect: Until your next Command phase, each time a model in that unit is destroyed, roll one D6: on a 5+, that unit's Objective Control characteristic is increased by 1 until the end of the battle round.

DESIGNER'S NOTE

Homebrew — HH3e (2026) Space Wolves Legion Rite of War → 11e conversion. Built from the real HH3e Rite of War data in `Space Wolves.json`, which has one baseline rite with three named pieces. Legion Tactica "The Hunter's Strike" is real (Space Wolves models add +2" to any Set-up Move, to a maximum of 6") — translated as a Faction Ability shortening the standard 9" Reserves/Deep Strike distance by 2", preserving the real "the pack arrives faster than expected" fantasy. Gambit "A Saga Woven of Glory" (real: winning a Challenge and slaying the opponent grants the winner's whole unit +1 Attacks in the following Fight Sub-Phase) became the identically-named Stratagem, translated directly. Advanced Reaction "Bestial Savagery" (real: once per battle, when a pure-Space-Wolves unit is shot, it gains Feel No Pain(5+) for the phase, then makes a charge-style move toward the shooter after the attack resolves, counting as a successful Charge with automatically-passed Morale if it connects) was promoted to the Detachment Rule itself, matching how every other Legion's flagship real mechanic has anchored its own detachment — and a fitting flagship for a Legion whose signature trait is turning incoming fire into an excuse to close the distance faster. No Prey Escapes borrows the real second Gambit's name (the Challenge-can't-end-until-someone-dies effect) for an original Stratagem in the same spirit; Rush the Line, Runic Ward, Saga of the Wulfen, and Feast of the Fallen are original stratagems filling out the standard six; Enhancements are original, themed around the Legion's rune-lore, pack-hunting, and trophy-taking identity.
