DETACHMENT — HORUS HERESY (30K)

FORTRESS OF THE MIND

THOUSAND SONS (HH, TRAITOR) | WARHAMMER 40,000 | 11TH EDITION

Fortress of the Mind is a fully homebrew Detachment for the Thousand Sons (XV Legion) faction — a Horus Heresy-era Traitor Legion detachment adapted to the Warhammer 40,000 11th-edition Detachment framework, built from the real HH3e Thousand Sons Rite of War data. Formatted to match the No Figure Left Behind Combat Patrol archive.

FACTION ABILITY

CULT ARCANA
Every warrior of the Fifteenth Legion is touched by the warp, whether they have been tested for it yet or not. All friendly Thousand Sons Infantry models have the [PSYKER] ability.

DETACHMENT RULE

FORTRESS OF THE MIND
Detachment Points: To use this detachment you must spend 1 DP.

A mind trained on Prospero can turn aside a bolt round the same way it turns aside a lesser sorcerer's hex. Once per battle, when a friendly Thousand Sons unit (excluding Vehicles) is selected as the target of a ranged attack, you can activate this rule. If you do, roll one D6: on a 4+, that unit has a 3+ invulnerable save against that attack; on a 1-3, that unit has a 5+ invulnerable save against that attack instead, and after the attack is resolved, that unit and the attacking unit each suffer 1 mortal wound.

FORCE DISPOSITIONS
This detachment has access to the following Force Disposition: Priority Assets.

DETACHMENT COMPOSITION

Included: All homebrew Thousand Sons (HH) roster units (Magnus the Red, Ahzek Ahriman, Magistus Amon, Prosperine Sorcerer, Castellax-Achea Automata, Contemptor-Osiron Dreadnought, Khenetai Occult Cabal, Sekhmet Terminator Cabal, Numerologist Cabal, Ammitara Occult Intercession Cabal, Inductii Squad), and any homebrew Legiones Astartes (HH) unit from the generic Space Marines (HH) roster given the Thousand Sons Trait.

Excluded: Any other Legion's Primarch or named characters. Non-Legiones-Astartes allies, per standard HH3e Legion-purity convention.

ENHANCEMENTS

RELIC OF PROSPERO — *Character model only*
Melee weapons equipped by the bearer have the [DEVASTATING WOUNDS] ability.

WARDED SARCOPHAGUS — *Character model only*
The bearer has a 5+ invulnerable save. If it already has an invulnerable save, use whichever is better.

FORESEEN THREAT — *Character model only*
Once per battle, in your opponent's Charge phase, before an enemy unit declares a charge, you can reveal that this model has this Enhancement; if you do, that enemy unit must target a different eligible unit with that charge, if able.

SIGIL OF THE ATHANAEAN — *Character model only*
Each time a friendly Thousand Sons Psyker unit within 6" of the bearer would lose a wound to a Mortal Wound, roll one D6: on a 5+, that wound is not lost.

DESIGNER'S NOTE

Homebrew — HH3e (2026) Thousand Sons Legion Rite of War → 11e conversion. Built from the real HH3e Rite of War data in `Thousand Sons.json`, which has one baseline rite with three named pieces: Legion Tactica "Cult Arcana" (a real, separately-digitized rule in `Special Rules.json`: all Thousand Sons models are Psykers with +1 base Willpower — used here as the army-wide Faction Ability, translated as a universal [PSYKER] grant), Gambit "Prophetic Duellist" (real: in a Challenge, substitute the model's own Willpower Characteristic for a Focus Roll result — translated into the Prophetic Duellist Stratagem as a guaranteed-Critical-Hit effect), and Advanced Reaction "Fortress of the Mind" (real: a once-per-battle reactive invulnerable save against a ranged attack, better on a passed Willpower Check, with a real backlash — both units suffer a Warp Rupture result from the Perils of the Warp table on a failed check) — promoted to the Detachment Rule itself, matching how World Eaters' Lost to the Nails and Dark Angels' Vengeance of the First Legion were each built from their own Legion's flagship real mechanic. The real Willpower-Check pass/fail structure was translated into a D6 roll (4+ for the strong 3+ save, 1-3 for the weaker 5+ save with a genuine mortal-wound cost on both sides), preserving the source's real risk/reward rather than smoothing it into a pure defensive freebie. Ætheric Shield, Rune of Warding, No Retreat, Corvidae Foresight, and The Rite is Unbroken are original stratagems filling out the standard six; Enhancements are original, themed around the Legion's psychic-ward and foresight identity.
