DETACHMENT — HORUS HERESY (30K)

LOST TO THE NAILS

WORLD EATERS (HH, TRAITOR) | WARHAMMER 40,000 | 11TH EDITION

Lost to the Nails is a fully homebrew Detachment for the World Eaters (XII Legion) faction — a Horus Heresy-era Traitor Legion detachment adapted to the Warhammer 40,000 11th-edition Detachment framework, built from the real HH3e World Eaters Rite of War data. Formatted to match the No Figure Left Behind Combat Patrol archive.

ARMY RULE

VIOLENCE INCARNATE

The World Eaters need no tactical genius to fight well — only a target within reach. Each time a model in a friendly World Eaters unit makes a melee attack on a turn in which that unit made a Charge move, add 1 to that attack's Attacks characteristic.

DETACHMENT RULE

LOST TO THE NAILS

Detachment Points: To use this detachment you must spend 1 DP.

When the Legion's discipline fails, the Nails do not. Each time a friendly World Eaters unit is selected to take a Battle-shock test, you can choose for that unit to become Lost to the Nails instead of taking that test. While a unit is Lost to the Nails:

- It automatically passes Battle-shock tests, and any Battle-shock effects already affecting it end immediately.
- Add 1" to the distance of any Normal, Advance, or Charge move it makes.
- Add 1 to the Attacks characteristic of melee weapons equipped by models in the unit.
- If, at the start of the Charge phase, this unit is within 12" of one or more enemy units, it must declare a charge, targeting the closest such enemy unit (if more than one is equally close, you choose).

A unit stops being Lost to the Nails at the start of any Charge phase in which no enemy unit is within 12" of it.

FORCE DISPOSITIONS

This detachment has access to the following Force Disposition: Purge the Foe.

DETACHMENT COMPOSITION

Included: All homebrew World Eaters (HH) roster units (Angron, Khârn the Bloody, Rampager Squad, Red Butchers), and any homebrew Legiones Astartes (HH) unit from the generic Space Marines (HH) roster given the World Eaters Trait. Endryd Haar may be included with either the World Eaters or Blackshields keyword.

Excluded: Angron Transfigured cannot be included in the same army as Angron (Lord of Corruption). Any other Legion's Primarch or named characters. Non-Legiones-Astartes allies, per standard HH3e Legion-purity convention.

ENHANCEMENTS

CRIMSON RICTUS — *Character model only*

A grin carved by the Nails, permanent, the same on every face that wears it. Melee weapons equipped by the bearer have the [LETHAL HITS] ability.

BLOOD-SLICK PLATE — *Character model only*

Armour that has stopped more blows than its wearer can remember taking. The bearer has the [FEEL NO PAIN 5+] ability against melee attacks.

SKULL-TAKER'S BLADE — *Character model only*

Every notch on the haft was once a name. Melee weapons equipped by the bearer have the [DEVASTATING WOUNDS] ability. Each time the bearer destroys an enemy Character model, the bearer regains D3 lost wounds.

THE BUTCHER'S MARK — *Character model only*

Once per battle, at the start of any Fight phase, the bearer's unit can become Lost to the Nails without needing to take a Battle-shock test, and while it remains Lost to the Nails from this effect, add 2 to the Attacks characteristic of its melee weapons (instead of 1).

STRATAGEMS

VIOLENT OVERKILL **1CP**

World Eaters — Battle Tactic Stratagem

When: Fight phase, just after a friendly World Eaters Character model's melee attack destroys the last model in the unit it targeted.

Target: That Character model.

Effect: That model can make one additional melee attack with the same weapon, which must target a different enemy unit within Engagement Range.

BRUTAL DISMEMBERMENT **1CP**

World Eaters — Epic Deed Stratagem

When: Fight phase, just after a friendly World Eaters Character model's melee attack destroys an enemy Character model.

Target: N/A.

Effect: If the destroyed model was your opponent's Warlord, you immediately gain 1 Command Point.

BRUTAL TIDE **2CP**

World Eaters — Strategic Ploy Stratagem

When: Your opponent's Shooting phase, just after they select a friendly World Eaters Infantry unit as the target of a ranged attack.

Target: That unit.

Effect: Until the end of the phase, your unit has the [FEEL NO PAIN 6+] ability. If it is not destroyed, at the end of the phase it can declare a charge against the unit that targeted it, resolved immediately as if it were your Charge phase. Use this Stratagem only once per battle.

FERAL MOMENTUM **1CP**

World Eaters — Battle Tactic Stratagem

When: Your Charge phase, just after a friendly World Eaters unit that is Lost to the Nails finishes a Charge move.

Target: That unit.

Effect: Until the end of the turn, that unit has the [FIGHTS FIRST] ability.

SKULLS FOR THE SKULL THRONE **1CP**

World Eaters — Strategic Ploy Stratagem

When: Your Command phase.

Target: One friendly World Eaters unit that is within range of an objective marker.

Effect: Until your next Command phase, add 1 to the Wound roll for melee attacks made by models in that unit.

UNSTOPPABLE BUTCHERY **2CP**

World Eaters — Epic Deed Stratagem

When: Fight phase, just after a friendly World Eaters Character model is destroyed, before it is removed from play.

Target: That model.

Effect: If that model has not already fought this phase, it can fight once, using its normal characteristics, before being removed as a casualty.

DESIGNER'S NOTE

Homebrew — HH3e (2026) World Eaters Legion Rite of War → 11e conversion. Built from the real HH3e Rite of War data in `World Eaters.json`. The real data splits into two rites: Legiones Astartes World Eaters (the baseline, always-available rite — Legion Tactica "Violence Incarnate," Gambit "Violent Overkill," Advanced Reaction "Brutal Tide") and Legiones Hereticus World Eaters (Traitor-Allegiance-only — Legion Tactica "The Nails' Bite"/"Lost to the Nails," Gambit "Brutal Dismemberment," Advanced Reaction "Furious Charge"). Since this project's whole World Eaters roster is Traitor-era, the flagship Lost to the Nails mechanic was promoted to the Detachment Rule itself. Violence Incarnate became the Faction Ability layer. Violent Overkill, Brutal Dismemberment, and Brutal Tide were converted into Stratagems rather than invented from scratch; Feral Momentum and Skulls for the Skull Throne are original additions filling out the standard six.
