COMBAT PATROL

WARPTONGUE'S HEX-PACT

THOUSAND SONS | WARHAMMER 40,000 | 11TH EDITION

A master of empyric ritual and daemonic conjuration, Madrax Warptongue thirsts for forbidden knowledge. Blessed by Tzeentch with formidable magical might, he uses these gifts to empower his thralls through Warp rituals and to obliterate his enemies' minds, bodies and souls with diabolic spells, his Rubric Marines and daemonic allies bound to his hex-pact.

ARMY RULES

BLESSINGS OF CHANGE

The sorcerous leaders of the Thousand Sons may channel their power to summon Tzeentch's daemonic servants and bind them to their will. They use their magicks to mutate the battlefield, harvest forbidden knowledge, conjure infernal illusions and empower their underlings, daemonic or otherwise.

At the start of your Shooting phase, one model from your army with this ability can attempt one Ritual from those listed below. To do so, select one model from your army with this ability that has not yet attempted a Ritual this turn and select one Ritual no model from your army has manifested this turn, then take a Psychic test for that model by following the sequence below.

Psychic Test Sequence: Roll 2D6. Channel the Warp (Optional) — then, if one or more doubles or triples were rolled during this test, that model's unit suffers D3 mortal wounds. If that model is not destroyed, the combined total of all the dice rolled during this test is the Psychic test result. If this equals or exceeds the Warp Charge value of the Ritual being attempted, that model manifests that Ritual and you resolve its effects.

Destiny's Ruin (Psychic) — Warp Charge 5. Select one enemy unit within 24" of and visible to the manifesting model. Until the end of the phase, each time a Thousand Sons or Legiones Daemonica model from your army makes an attack that targets that unit, re-roll a Hit roll of 1.

Temporal Surge (Psychic) — Warp Charge 6. Select one friendly Thousand Sons or Legiones Daemonica unit that is not within Engagement Range of one or more enemy units and is within 24" of and visible to the manifesting model. That unit can make a Normal move of up to D6", and until the end of the turn, that unit is not eligible to declare a charge.

DETACHMENT RULE

WARPTONGUE'S HEX-PACT

Detachment Points: To use this detachment you must spend 1 DP.

WARP-TOUCHED

Each time a Ritual manifests for a unit from this detachment this phase, until the end of the phase, that unit has the Feel No Pain 6+ ability.

FORCE DISPOSITIONS

This detachment has access to the following Force Disposition: Disruption.

ENHANCEMENTS

WORTHY OFFERINGS — *Warptongue's Hex-Pact Madrax Warptongue unit only*

The bearer's ranged weapons have the [PISTOL] and [PRECISION] abilities.

EPHEMERAL FORM — *Warptongue's Hex-Pact Madrax Warptongue unit only*

The bearer's unit is eligible to shoot in a turn in which it Advanced or Fell Back. Each time a model in the bearer's unit makes a Normal, Advance or Fall Back move, it can move through enemy models. When doing so, it can move within Engagement Range of such models but cannot end that move within Engagement Range of them, and any Desperate Escape test is automatically passed.

STRATAGEMS

WRATH OF THE WARP **1CP**

Warptongue's Hex-Pact — Battle Tactic Stratagem

When: Fight phase, just after an enemy unit has selected its targets.

Target: One Thousand Sons Psyker or Legiones Daemonica unit from your army that was selected as the target of one or more of the attacking unit's attacks.

Effect: Until the end of the phase, each time a Psyker or Legiones Daemonica model from your unit is destroyed, after the attacking unit has finished making its attacks, roll one D6, adding 2 to the result if the attacking unit has the Psyker keyword: on a 2-4, the attacking unit suffers 1 mortal wound; on a 5+, the attacking unit suffers 2 mortal wounds.

CURSETOUCH **1CP**

Warptongue's Hex-Pact — Battle Tactic Stratagem

When: Fight phase.

Target: One Thousand Sons Psyker or Legiones Daemonica unit from your army that has not been selected to fight this phase.

Effect: Until the end of the phase, add 1 to the Damage characteristic of melee weapons equipped by Psyker and Legiones Daemonica models in your unit.

INTIMIDATING INTRUSION **1CP**

Warptongue's Hex-Pact — Strategic Ploy Stratagem

When: End of your opponent's Movement phase.

Target: One Thousand Sons unit from your army.

Effect: Select one Psyker model in your unit, then select one objective marker within 12" of that model that is under your opponent's control and has no models from your opponent's army within range that have an Objective Control characteristic of 1 or more. Your unit takes a Leadership test. If that test is passed, that objective marker is no longer under your opponent's control or secured by them.
