COLOSSUS BATTLE ROBOT

185
POINTS

SIEGE-PATTERN BATTLE AUTOMATA

ADEPTUS MECHANICUS • IMPERIUM

A two-handed piledriver mounted to the Colossus's dominant arm, swung with the full mass of the chassis behind it. The intended target is a bunker wall; smaller things in the way are an irrelevance.

ABILITIES

CORE: Deadly Demise D6

Faction — Doctrina Imperatives
See Army Rule.

Atomantic Cortex Shielding
This model has a 5+ invulnerable save.

Implacable Programming
This model automatically passes Battle-shock tests, and is unaffected by rules that would force it to Fall Back or leave the battlefield against its preprogrammed orders.

Wrecker Protocol
Each time this model makes an attack (ranged or melee) that targets a Vehicle, Monster, or Fortification unit, you can re-roll a Wound roll of 1, and the Damage characteristic of that attack is increased by 1.

Cortex Override Vulnerability
If there is no friendly Adeptus Mechanicus Character model within 12" of this model at the start of your Command phase, this model can only move toward the nearest visible enemy unit during its next Movement phase, and must attempt to charge if able.

Explodes (6)
When this model is destroyed, roll one D6 before removing it from play; on a 6 each unit within 6" suffers D6 mortal wounds.

Bolt Gun
[RAPID FIRE 1]

Melta-Gun
[MELTA 2]

Siege Hammer
[DEVASTATING WOUNDS]

Designer's Note. The Colossus is the heaviest of the five RT Compendium (1987) battle robots — a dedicated siege-breaker carrying a massive siege hammer alongside a default bolt gun and melta-gun. Kept slow, oversized, and brutally specialised: a 14-Strength hammer with Devastating Wounds, +1 Damage and re-roll Wound 1s against Vehicles/Monsters/Fortifications, and a Deadly Demise D6 to make its eventual destruction memorable. Not a duellist — a wall-breaker. **11th-edition verification, 2026-08-31:** checked current 11e BSData directly (including HH-era sources) — no match anywhere for "Colossus" or "Battle Robot" in this context; still genuinely unsupported. No related real chassis exists to calibrate against. No stat corrections possible; kept as-is from the prior 10e conversion pass. 11th-edition rules pass, 2026-10-10: regenerated from the NewRecruit NFLB catalogue so this card matches New Recruit exactly — official 11e weapon and wargear profiles wherever an official equivalent exists, 11e Orders and wording.
