HOMEBREW — 7TH ED LAST CANON

IMPERIAL GUARD SPECIAL WEAPON SQUAD

70 POINTS

EVERY MAN A SPECIALIST

ASTRA MILITARUM • GENERIC REGIMENT • IMPERIUM

No lasguns, no rifles — just meltaguns, flamers, and plasma, carried by men who trained for nothing else. A full melta squad can crack a tank open; a full plasma squad melts a monster where it stands.

Designer's Note. No current-edition datasheet exists for a dedicated all-special-weapons Guard squad (the option is folded into a single free upgrade on a standard Imperial Guard Squad instead). This datasheet is fully original 11e homebrew, built for regiments whose model count is historically weighted toward mixed special-weapon teams (e.g. Tallarn desert raiders, Catachan demolition teams). Regiment-agnostic by design; per-regiment flavour belongs in each Combat Patrol's own Detachment Rule. Converted from the 7th Edition-sourced homebrew Special Weapons Squad. 11th-edition conversion, 2026-07-28. 11th-edition rules pass, 2026-10-10: regenerated from the NewRecruit NFLB catalogue so this card matches New Recruit exactly — official 11e weapon and wargear profiles wherever an official equivalent exists, 11e Orders and wording.
