Designer's Note. HH3e Ordinatus Sagittar. Beam-weapon variant Ordinatus — purpose-built tank-killer. Anchored slightly above Ulator on offence (S18 AP-5 D6+6 on a Knight-tier vehicle). Beam Convergence rewards keeping range open. **11th-edition verification, 2026-08-29:** confirmed still current in fresh HH3e BSData (`Mechanicum.json`, non-hidden). Real profile uses the older Vehicle armour-facing format (Primary/Exposed/HP), identical Carriage/Gun stats to the Ordinatus Aktaeus and Ulator — no direct comparison is possible with this card's T/W/SV, so content kept as-is (format conversion only). Expanded the abbreviated "Damage halving as

> Ulator" Void Shield Projector text to its full wording for a self-contained card. 11th-edition rules pass, 2026-10-10: regenerated from the NewRecruit NFLB catalogue so this card matches New Recruit exactly — official 11e weapon and wargear profiles wherever an official equivalent exists, 11e Orders and wording.
