SAINT PRAXEDES

130 POINTS

SAINT OF OPHELIA VII

ADEPTA SORORITAS • ORDER OF OUR MARTYRED LADY • IMPERIUM

The Mace of Saint Praxedes is the holiest of relics — said to have crushed the skulls of three Hive Tyrants during the defence of Ophelia VII. In the current Sororitas codex, it survives as an Enhancement that any Canoness may bear, but Praxedes herself wields it best.

Saint of Ophelia VII [AURA]
While a friendly Adepta Sororitas unit is within 6" of this model, you can re-roll Battle-shock tests taken for that unit, and models in that unit have the Feel No Pain 6+ ability.

Living Saint
When this model is destroyed, do not remove it from play. Roll one D6 at the start of your next Command phase: on a 4+, set this model back up on the battlefield as close as possible to where it was destroyed and not within Engagement Range of enemies, with full Wounds. If it cannot be set up, it is removed permanently. This model can be returned to the battlefield up to twice per battle.

Martyrdom of the Mace
Each time this model is selected to fight, you can declare a Martyrdom. If you do, until the end of the phase, add 1 to the Hit roll for attacks made with the Mace of Saint Praxedes, and that weapon has the [SUSTAINED HITS 2] ability. At the end of the phase, this model loses D3 wounds (this cannot be reduced or prevented).

Halo of the Emperor
Each time this model is selected as the target of an attack made with a [PSYCHIC] weapon, roll one D6: on a 4+, that attack has no effect. In addition, each time an enemy unit within 12" of this model takes a Battle-shock test, subtract 1 from that test.

Bolt Pistol
[PISTOL]

Mace of Saint Praxedes
[DEVASTATING WOUNDS]

Designer's Note. Saint Praxedes of Ophelia VII was a Canoness of the Order of Our Martyred Lady who ascended to Sainthood during the Second Tyrannic War. She had a brief 8th Ed datasheet (free Warhammer Community PDF promo, 2019). In the current codex the canonical Saint Celestine datasheet covers the Living Saint role, and the Mace of Saint Praxedes survives as an Enhancement Relic — but Praxedes herself is no longer a datasheet. This homebrew preserves her as a slightly less-powerful Living Saint than Celestine, with a Martyrdom ability for an all-in attack at the cost of self-damage. **11th-edition verification, 2026-08-30:** checked current 11e BSData directly — no match for "Praxedes" anywhere; still genuinely unsupported. No stat corrections possible; kept as-is from the prior 10e conversion pass. 11th-edition rules pass, 2026-10-10: regenerated from the NewRecruit NFLB catalogue so this card matches New Recruit exactly — official 11e weapon and wargear profiles wherever an official equivalent exists, 11e Orders and wording.
