Designer's Note. HH3e Triaros Armoured Conveyor. The canonical Mechanicum heavy transport. Anchored on Land Raider / Repulsor tier (T10 W14 Sv2+ OC4). Flare Shield is the canonical Triaros signature — long-range damage reduction in addition to a standard invuln save. Flare Shield Projectors' blank BS is correct (Torrent auto-hits), not a data error. **11th-edition verification, 2026-08-30:** confirmed still current in fresh HH3e BSData (`Mechanicum.json`, non-hidden, typed "Vehicle (Transport)"). Real profile uses the older Vehicle armour-facing format (Front14/Side12/Rear12/HP7) — not comparable to T/W/SV. Real Transport Capacity is 22 (vs this card's 12), but the card's lower figure already reflects an intentional slot-cost design (Ursarax/Myrmidon taking 2 slots each) rather than a literal capacity translation, so kept as-is. 11th-edition rules pass, 2026-10-10: regenerated from

> the NewRecruit NFLB catalogue so this card matches New Recruit exactly — official 11e weapon and wargear profiles wherever an official equivalent exists, 11e Orders and wording.
