Faction — Doctrina Imperatives
See Army Rule.

Atomantic Shielding
This model has a 6+ invulnerable save.

Cortex Controller
While this unit is within 12" of a friendly Tech-Priest model, each time a model in this unit makes an attack you can re-roll a Hit roll of 1. If the friendly Tech-Priest has the Cybertheurgist keyword, re-roll all Hit rolls of 1 instead.

Implacable Programming
This model automatically passes Battle-shock tests, and is unaffected by rules that would force it to Fall Back against its preprogrammed orders.

Hunter-Killer Subroutine
Each time a model in this unit makes an attack against the closest visible enemy unit, that attack has +1 to the Hit roll.

Rotor Cannon
[SUSTAINED HITS 1]

Lightning Claw + Chainfist

Designer's Note. HH3e Vorax Attack Maniple. Light scout-class Battle-Automata — the Mechanicum's hunter-killers. Statline anchored on Skitarii Ruststalkers / fast attack tier (T7 W4, M10"). Scouts 9" + Stealth + Hunter-Killer Subroutine all reflect HH3e Vorax flavour as predator units that flank and snipe priority targets. **11th-edition verification, 2026-08-30:** confirmed still current in fresh HH3e BSData as "Vorax Attack Maniple" (`Mechanicum.json`, non-hidden, typed "Automata"). Real SAV3+ matched; real INV6+ was missing from this card entirely — added (maps directly per established convention). 11th-edition rules pass, 2026-10-10: regenerated

> from the NewRecruit NFLB catalogue so this card matches New Recruit exactly — official 11e weapon and wargear profiles wherever an official equivalent exists, 11e Orders and wording.
