Designer's Note. HH3e Vultarax Stratos Squadron. The Mechanicum's flying Battle-Automata — a rare HH-only chassis with no 40K equivalent. Statline blends Skyweaver speed (M14, Fly) with Battle-Automata durability (T8 Sv3+). Anti-Fly bonus gives it a clear board role. **11th-edition verification, 2026-08-30:** confirmed still current in fresh HH3e BSData as "Vultarax Stratos Squadron" (`Mechanicum.json`, non-hidden, typed "Automata (Antigrav)"). Real SAV3+/INV5+ found — corrected this card's SV from 2+ to 3+ (invuln 5+ already matched, maps directly per established convention). 11th-edition rules pass, 2026-10-10: regenerated from the NewRecruit NFLB

> catalogue so this card matches New Recruit exactly — official 11e weapon and wargear profiles wherever an official equivalent exists, 11e Orders and wording.
