

WORLD EATERS

LOST TO THE NAILS

LEGIONES ASTARTES (HH) • XII LEGION • TRAITOR

"There is no tactic left in me. There is no plan. There is only the space between me and the next thing that dies." — attributed to an unnamed World Eaters Legionary, recorded moments before the vox-link went silent, Armatura Campaign. The World Eaters do not fight a war of manoeuvre. They fight a war of proximity — close the distance, and let the Nails do what the Legion's own discipline no longer can.

FACTION ABILITY — VIOLENCE INCARNATE

The World Eaters need no tactical genius to fight well — only a target within reach.

Each time a model in a friendly **World Eaters** unit makes a melee attack on a turn in which that unit made a Charge move, add 1 to that attack's Attacks characteristic.

DETACHMENT RULE — LOST TO THE NAILS

LOST TO THE NAILS

When the Legion's discipline fails, the Nails do not. What answers in its place no longer takes orders — only targets.

Each time a friendly **World Eaters** unit is selected to take a Battle-shock test, you can choose for that unit to become **Lost to the Nails** instead of taking that test. While a unit is Lost to the Nails:

- It automatically passes Battle-shock tests, and any Battle-shock effects already affecting it end immediately.
- Add 1" to the distance of any Normal, Advance, or Charge move it makes.
- Add 1 to the Attacks characteristic of melee weapons equipped by models in the unit.
- If, at the start of the Charge phase, this unit is within 12" of one or more enemy units, it must declare a charge, targeting the closest such enemy unit (if more than one is equally close, you choose).

A unit stops being Lost to the Nails at the start of any Charge phase in which no enemy unit is within 12" of it.

DETACHMENT COMPOSITION

✓ **Included:** All homebrew **World Eaters (HH)** roster units (Angron, Khârn the Bloody, Rampager Squad, Red Butchers), and any homebrew **Legiones Astartes (HH)** unit from the generic Space Marines (HH) roster given the World Eaters Trait (Breacher Squad, Despoiler Squad, Praetor, Kratos Assault Tank, etc. — all built 2026-05-17, see [[project_hh_11e_conversion]]). **Endryd Haar** may be included with either the World Eaters or Blackshields keyword.

✗ **Excluded:** **Angron Transfigured** cannot be included in the same army as Angron (Lord of Corruption). Any other Legion's Primarch or named characters. Non-Legiones-Astartes allies, per standard HH3e Legion-purity convention.

ENHANCEMENTS

CRIMSON RICTUS 15 PTS

A grin carved by the Nails, permanent, the same on every face that wears it.

Melee weapons equipped by the bearer have the **[LETHAL HITS]** ability.

BLOOD-SLICK PLATE 20 PTS

Armour that has stopped more blows than its wearer can remember taking.

The bearer has the **[FEEL NO PAIN 5+]** ability against melee attacks.

SKULL-TAKER'S BLADE 20 PTS

Every notch on the haft was once a name. The bearer stopped counting; the blade did not.

Melee weapons equipped by the bearer have the **[DEVASTATING WOUNDS]** ability. Each time the bearer destroys an enemy **Character** model, the bearer regains D3 lost wounds.

THE BUTCHER'S MARK 25 PTS

Some do not wait for the Nails to fail them. Some go looking for the moment on their own.

Once per battle, at the start of any Fight phase, the bearer's unit can become **Lost to the Nails** without needing to take a Battle-shock test, and while it remains Lost to the Nails from this effect, add 2 to the Attacks characteristic of its melee weapons (instead of 1).

STRATAGEMS

VIOLENT OVERKILL 1 CP

World Eaters — Battle Tactic Stratagem

The blade does not stop simply because the first target already has.

WHEN: Fight phase, just after a friendly **World Eaters Character** model's melee attack destroys the last model in the unit it targeted.

TARGET: That Character model.

EFFECT: That model can make one additional melee attack with the same weapon, which must target a different enemy unit within Engagement Range.

BRUTAL DISMEMBERMENT 1 CP

World Eaters — Epic Deed Stratagem

A Warlord's death is worth more than the wound that ends it.

WHEN: Fight phase, just after a friendly **World Eaters Character** model's melee attack destroys an enemy **Character** model.

TARGET: N/A.

EFFECT: If the destroyed model was your opponent's Warlord, you immediately gain 1 Command Point.

BRUTAL TIDE 2 CP

World Eaters — Strategic Ploy Stratagem

Bullets are a delay, not an answer. The distance still needs closing.

WHEN: Your opponent's Shooting phase, just after they select a friendly **World Eaters Infantry** unit as the target of a ranged attack.

TARGET: That unit.

EFFECT: Until the end of the phase, your unit has the **[FEEL NO PAIN 6+]** ability. If it is not destroyed, at the end of the phase it can declare a charge against the unit that targeted it, resolved immediately as if it were your Charge phase. Use this Stratagem only once per battle.

FERAL MOMENTUM 1 CP

World Eaters — Battle Tactic Stratagem

A unit Lost to the Nails does not slow down when it arrives. It only just started.

WHEN: Your Charge phase, just after a friendly **World Eaters** unit that is Lost to the Nails finishes a Charge move.

TARGET: That unit.

EFFECT: Until the end of the turn, that unit has the **[FIGHTS FIRST]** ability.

SKULLS FOR THE SKULL THRONE 1 CP

World Eaters — Strategic Ploy Stratagem
An offering is only worth what it costs to take.

WHEN: Your Command phase.

TARGET: One friendly **World Eaters** unit that is within range of an objective marker.

EFFECT: Until your next Command phase, add 1 to the Wound roll for melee attacks made by models in that unit.

UNSTOPPABLE BUTCHERY 2 CP

World Eaters — Epic Deed Stratagem
The Nails do not know the difference between a heartbeat and its absence.

WHEN: Fight phase, just after a friendly **World Eaters Character** model is destroyed, before it is removed from play.

TARGET: That model.

EFFECT: If that model has not already fought this phase, it can fight once, using its normal characteristics, before being removed as a casualty.

DESIGNER'S NOTE

Homebrew — HH3e (2026) World Eaters Legion Rite of War → 11e conversion. Built from the real HH3e *Rite of War* data in `World Eaters.json` once the local BSData snapshot was refreshed (it had been missing every per-Legion file). The real data splits into two rites: **Legiones Astartes World Eaters** (the baseline, always-available rite — Legion *Tactica* "Violence Incarnate," Gambit "Violent Overkill," Advanced Reaction "Brutal Tide") and **Legiones Hereticus World Eaters** (Traitor-Allegiance-only — Legion *Tactica* "The Nails' Bite"/"Lost to the Nails," Gambit "Brutal Dismemberment," Advanced Reaction "Furious Charge"). Since this project's whole World Eaters roster is Traitor-era, the flagship **Lost to the Nails** mechanic (mandatory-charge berserker frenzy triggered off a failed Leadership/Battle-shock check) was promoted to the Detachment Rule itself rather than a secondary option, translated as closely to the real text as 11e's Battle-shock/Charge-phase structure allows. Violence Incarnate (the baseline rite's own signature rule, real and directly portable: +1 Attacks on the charge) became the Faction Ability layer. Violent Overkill and Brutal Dismemberment (both real Gambits) and Brutal Tide (a real Advanced Reaction) were converted into Stratagems rather than invented from scratch; Feral Momentum and Skulls for the Skull Throne are original additions filling out the standard 11e six-stratagem spread. Enhancements are original, themed around the Legion's blood-frenzy identity rather than pulled from a specific real relic list (the source data's relics weren't dumped as part of this build).
