Fearsome (Aura)

While an enemy unit is within 6" of this unit, each time that enemy unit takes a Battle-shock or Leadership test, subtract 1 from the result.

NFLB-L Rebalance

GW's Gellerpox Infected [Legends] datasheet (unchanged; its profiles are in step with the current Accursed Cultists) with the rest of the Kill Team box added: Vulgrar Thrice-cursed and up to 4 Mutoid Vermin / Glitchlings (Bloatspawn, Fleshscreamer and Lumberghast are its Nightmare Hulks). Replaces the official Legends entry; base points follow GW's Legends points.

Spread the Glorious Gifts

Once per battle, at the end of your Command phase, if this model is within range of an objective marker you control, that objective marker remains under your control until your opponent's Level of Control over it is greater than yours at the end of a phase.

Caustic Demise

Each time this model is destroyed, roll one D6: on a 4+, one enemy unit within 3" of it suffers 1 mortal wound.

Unit Composition

3 Gellerpox Mutants, 1 Nightmare Hulk with belly flamer and 3 Nightmare Hulks (GW's Legends unit). Optional: Vulgrar Thrice-cursed (+40 pts) and up to 4 Mutoid Vermin / Glitchlings (+5 pts each).

Designer's Note — Kill Team Kit

NFLB-L: GW's Gellerpox Infected [Legends] datasheet, kept as-is (its profiles are in step with the current Accursed Cultists), with the rest of the Kill Team "Gellerpox Infected" box added. Bloatspawn, Fleshscreamer and Lumberghast are its Nightmare Hulks; the Mutants are its Gellerpox Mutants. In New Recruit it replaces the official Legends entry for Chaos Space Marines and Death Guard.
