COMBAT PATROL

HIDDEN HUNT

AELDARI (ALAITOC) | WARHAMMER 40,000 | 11TH EDITION

Illic Nightspear, the Pathfinder Lord of Alaitoc, leads a hand-picked band of Outcasts to war. Voidbringer cradled in his hands, he and his Rangers strike from impossible distances and vanish before the first echo of fire dies away — a patient, surgical war fought from shadow and silence. Hidden Hunt is a homebrew Aeldari Combat Patrol for the Alaitoc sub-faction, adapted to the 11th-edition Combat Patrol framework. Formatted to match the No Figure Left Behind Combat Patrol archive.

ARMY RULE

BATTLE FOCUS

If your Army Faction is Asuryani, at the start of the battle round, you receive 2 Battle Focus tokens.

Each time one of the triggers shown in the Agile Manoeuvres section below occurs, you can spend one Battle Focus token to enable the relevant eligible unit to perform that Agile Manoeuvre. A unit is eligible to perform an Agile Manoeuvre if it has this ability and has not already performed an Agile Manoeuvre in the same phase. Unless otherwise stated, you cannot trigger the same Agile Manoeuvre more than once per phase. At the end of the battle round, all unspent Battle Focus tokens are lost.

Swift as the Wind

Trigger: When an eligible unit from your army is selected to make a Normal, Advance or Fall Back move. (Can trigger more than once per phase, provided a different unit performs it each time.)
Effect: Until the end of the phase, add 2" to the Move characteristic of models in that unit.

Flitting Shadows

Trigger: When an eligible unit is selected to make a Normal, Advance or Fall Back move, is set up on the battlefield, or declares a charge.
Effect: Until the end of the turn, enemy units cannot use the Fire Overwatch Stratagem to shoot at that unit.

Star Engines

Trigger: When an eligible Vehicle unit is selected to make an Advance move.
Effect: Until the end of the turn, ranged weapons equipped by this unit have the [ASSAULT] ability.

Sudden Strike

Trigger: When an eligible unit is selected to fight.
Effect: Until the end of the phase, each time a model in that unit makes a Pile-in or Consolidation move, it can move up to 6" instead of up to 3".

Opportunity Seized

Trigger: When an enemy unit ends a Fall Back move.
Effect: One eligible unit (excluding Titanic units) that started the phase within Engagement Range of that enemy unit can make a Normal move of up to D6+1".

Fade Back

Trigger: In your opponent's Shooting phase, just after an enemy unit has shot.
Effect: One eligible unit (excluding Titanic units) that was hit by one or more of those attacks can make a Normal move of up to D6+1".

DETACHMENT RULE

STALKING PATROL

Detachment Points: To use this detachment you must spend 1 DP.

HIDDEN IN THE LONG GRASS

If a friendly Hidden Hunt unit Remained Stationary in its previous Movement phase, until the start of its next Movement phase: • That unit has the Stealth ability and is treated as having the Benefit of Cover. • Ranged attacks against that unit cannot be made by enemy models more than 12" away.

FORCE DISPOSITIONS

This detachment has access to the following Force Disposition: Disruption.

ENHANCEMENTS

MARK OF THE INCOMPARABLE HUNTER — *Hidden Hunt Illic Nightspear model only*

PATHFINDER CADRE — *Hidden Hunt Rangers unit only*
These Rangers have walked the Path of the Outcast longer than most, hand-crafting their rifles to a standard beyond the already-formidable Alaitoc Ranger. • Improve the Ballistic Skill characteristic of Ranger Long Rifles equipped by models in this unit by 1. • Ranger Long Rifles equipped by models in this unit have the [LETHAL HITS] ability. • Each time a ranged attack targets this unit, if this unit Remained Stationary in its previous Movement phase, subtract 1 from the Hit roll.
