COMBAT PATROL

DEATH KORPS COMBAT PLATOON

ASTRA MILITARUM | WARHAMMER 40,000 | 11TH EDITION

A grim tide of gas-masked infantry advances behind a Lord Commissar's unblinking gaze, its trench-hardened ranks screened by mounted lancers and dug in behind heavy stubbers. The Death Korps of Krieg do not retreat, and they do not surrender.

ARMY RULE

VOICE OF COMMAND

If your Army Faction is Astra Militarum, Officer models with this ability can issue Orders. Each Officer datasheet specifies how many Orders it can issue in a battle round and which units are eligible to receive those Orders. Each time an Officer model issues an Order, select one of the Orders below, then select one eligible friendly unit within 6" of that Officer model to issue it to.

Officer models can issue Orders in your Command phase and at the end of a phase in which they disembarked from a Transport or were set up on the battlefield.

Until the start of your next Command phase, the unit you selected is affected by that Order. Unless otherwise stated, a unit can only be affected by one Order at a time (any Order subsequently issued to that unit replaces the current one). Orders cannot be issued to Battle-shocked units, and if a unit being affected by an Order becomes Battle-shocked, that Order ceases to affect that unit. Only Astra Militarum models gain the benefit of an Order issued to their unit.

• **Move! Move! Move!** — Add 3" to the Move characteristic of models in this unit.
• **Fix Bayonets!** — Improve the Weapon Skill characteristic of melee weapons equipped by models in this unit by 1.
• **Take Aim!** — Improve the Ballistic Skill characteristic of ranged weapons equipped by models in this unit by 1.
• **First Rank, Fire! Second Rank, Fire!** — Improve the Attacks characteristic of Rapid Fire weapons equipped by models in this unit by 1.
• **Take Cover!** — Improve the Save characteristic of models in this unit by 1 (this cannot improve a model's Save to better than 3+).
• **Duty and Honour!** — Improve the Leadership and Objective Control characteristics of models in this unit by 1.
