COMBAT PATROL

THE HOUR OF MANIFESTATION

LEGION OF THE DAMNED (ADEPTUS ASTARTES) | WARHAMMER 40,000 | 11TH EDITION

Sergeant Centurius walks at the head of his squad as he has for a thousand standard years. The skull-relic in his off-hand hums faint white, and the bone-marked Astartes who follow him are not breathing — they are the spectral hand of the Emperor's vengeance, made flesh in the moment of greatest need. The Hour of Manifestation is a homebrew Legion of the Damned Combat Patrol. Sergeant Centurius is a homebrew Character adapted from 2nd-3rd Edition sources; the Damned Legionnaires, Tactical Squad, Razorback, and Drop Pod are all canonical BSData datasheets. Damned Legionnaires exists only as Legends content in current BSData; the rest of the army wears the same bone-black livery by homebrew convention (the Legion manifests its host wholesale). Formatted to match the No Figure Left Behind Combat Patrol archive. **11e Space Marine codex update (18 Oct 2026):** datasheets brought in line with their updated standalone cards (power armour T5, Terminators T6, Astartes bolt weapons S5 AP-1 with [CLOSE-QUARTERS] pistols, codex weapon profiles). Current card points: Sergeant Centurius 125.

ARMY RULE

OATH OF MOMENT (THE DAMNED)
The Damned bear no chapter oath save the oath of the moment of their summoning. At the start of your first Command phase, select one enemy unit. Until that unit is destroyed (or until the end of the battle), each time a model in your army makes an attack against that unit, you can re-roll a Hit roll of 1, and re-roll a Wound roll of 1.

DETACHMENT RULE

PHANTASMAL ASTARTES
Detachment Points: To use this detachment you must spend 1 DP.

Friendly Legion of the Damned Infantry units have the [FEEL NO PAIN 5+] ability against all attacks. All other friendly Legion of the Damned units (Vehicles, Walkers, Mounted) have the [FEEL NO PAIN 6+] ability against all attacks. In addition, each time a friendly Legion of the Damned unit makes an attack against an enemy unit that destroyed any friendly Legion of the Damned Infantry model earlier this battle, that attack has the [DEVASTATING WOUNDS] ability.

Every unit in this army is Legion of the Damned. The Chapter has manifested its host wholesale, bearing the arms of its members in life — the Damned Tactical Squad, Damned Razorback, and Damned Drop Pod all bear the LEGION OF THE DAMNED keyword and benefit from this rule.

FORCE DISPOSITIONS
This detachment has access to the following Force Disposition: Purge the Foe.

ENHANCEMENTS

Your Sergeant Centurius model is your Warlord and has the Sacred Flame Enhancement. You can replace this with Phantasmal Reach.

SACRED FLAME — *Hour of Manifestation Sergeant Centurius model only (default)*
The bearer's weapons crackle with white spectral fire that has no fuel save the foe's screams. Weapons equipped by the bearer have the [DEVASTATING WOUNDS] ability. The bearer also has a 5+ Feel No Pain against Mortal Wounds.

PHANTASMAL REACH — *Hour of Manifestation Sergeant Centurius model only (optional)*
The bearer arrives where the Emperor wills, not where the cartographer permits. During deployment, place the bearer (and the unit they are leading) in Strategic Reserves. From battle round 1, the unit can arrive: set up wholly within 6" of any battlefield edge OR wholly within 6" of a friendly Damned Legionnaires unit on the battlefield, and more than 3" from any enemy unit (instead of the standard 9").

SECONDARY OBJECTIVES

You will use the Vengeance of the Fallen secondary objective. You can replace this with Unbidden Strike.

VENGEANCE OF THE FALLEN (DEFAULT)
The Damned do not forget. They reckon with their killers. At the end of each phase, you score 3VP if a friendly Legion of the Damned unit destroyed one or more enemy units that previously destroyed a friendly Damned Legionnaires model this battle. Score an additional 2VP if Sergeant Centurius personally made the killing blow. Maximum 12VP per battle.

UNBIDDEN STRIKE (OPTIONAL)
The Damned arrive at the hour of greatest need. That hour is now. At the end of battle rounds 1 and 2 only, you score 4VP if a friendly Legion of the Damned unit that arrived from Strategic Reserves this turn destroyed one or more enemy units this turn. Maximum 8VP per battle (4VP each in turns 1 and 2).

STRATAGEMS

DAMNATION'S CALL **1CP**
Phantasmal Astartes — Battle Tactic Stratagem

When: Your Shooting phase, just after a friendly Legion of the Damned unit has been selected to shoot.

Target: That unit.

Effect: Until the end of the phase, attacks made by Bolt weapons in this unit have +1 to the Wound roll AND ignore the Benefit of Cover.

PHANTASMAL RETURN **2CP**

Target: That destroyed Infantry unit.

Effect: Add a new unit of the same datasheet at the same starting strength to your Strategic Reserves. It can arrive from your next Movement phase onward, per standard Strategic Reserves rules. Use this Stratagem only once per battle.

UNBIDDEN MANIFESTATION **2CP**
Phantasmal Astartes — Strategic Ploy Stratagem

When: Start of any battle round from battle round 2 onward.

Target: One friendly Legion of the Damned unit in Strategic Reserves.

Effect: That unit arrives this battle round and is set up wholly within 6" of any friendly Legion of the Damned unit already on the battlefield, more than 6" from any enemy unit. Use this Stratagem only once per battle.

Phantasmal Form
This model has the [FEEL NO PAIN 5+] ability against all attacks, AND each time an attack is allocated to this model, after determining if the attack is successful, your opponent must roll one D6: on a 4+, the attack still resolves; on a 1-3, the attack fizzles harmlessly (treat as a miss).

Animus Malorum (Wargear — Daemon Skull-Relic)
Each time an enemy model is destroyed within 12" of this model by any cause, place one Soul counter beside this model (max 3). Once per turn, in your Command phase OR at the end of any phase in which a friendly Damned Legionnaires unit lost one or more models, you can spend 1 Soul counter to return one destroyed Damned Legionnaire model to a friendly Damned Legionnaires unit on the battlefield within 9" of Centurius, more than 6" from any enemy unit, with 1 wound remaining.

Vengeful Spectre
If a friendly Damned Legionnaires unit was destroyed earlier in this battle, each time this model or its attached unit makes an attack against the enemy unit that destroyed the Damned Legionnaires, re-roll all failed Hit rolls AND failed Wound rolls.

Manifestation
During deployment, instead of setting up this model and its attached unit on the battlefield, you can place it in Strategic Reserves. From battle round 1, this model and its unit can arrive: set up wholly within 6" of any battlefield edge OR wholly within 6" of a friendly Damned Legionnaires unit on the battlefield, and more than 6" from any enemy models.

LEADER

This model can be attached to the following unit: HOUR OF MANIFESTATION DAMNED LEGIONNAIRES. While attached, the Damned Legionnaires unit gains +1 to the Hit roll on Charge and [DEVASTATING WOUNDS] on all bolt weapons (in addition to the detachment rule's effects).

Fire Support
In your Shooting phase, after this model has shot, select one enemy unit it scored one or more hits against this phase. Until the end of the phase, each time a friendly model that disembarked from this Transport this turn makes an attack that targets that enemy unit, you can re-roll the Wound roll.

HOUR OF MANIFESTATION DAMNED DROP POD

M	T	SV	W	LD	OC
-	7	3+	8	6+	-

ABILITIES

Faction — Oath of Moment (The Damned) + Phantasmal Astartes
See Army Rule / Detachment Rule. [FEEL NO PAIN 6+] against all attacks.

Drop Pod Assault
This model must start the battle in Reserves and can be set up in the Reinforcements step of your first, second, or third Movement phase, regardless of any mission rules. Any units embarked within this model must immediately disembark after it has been set up on the battlefield, and they must be set up more than 8" away from all enemy models.

Deadly Demise
This ability always takes the form Deadly Demise X. Each time a model in this unit is destroyed, after the units embarked within it (if any) have made their emergency disembark moves, roll one D6. On a 6, that model suffers a deadly demise; each unit within 6" of that model suffers a number of mortal wounds denoted by X (if this is a random number, roll separately for each unit within 6"). *Example: An Impulsor with a unit of Intercessors embarked within it is destroyed by ranged attacks. First, any unresolved attacks made by the attacking unit are resolved. Then the Intercessors make an emergency disembark move. Then the roll is made for the Deadly Demise ability, and on a 6, that ability is resolved. Finally, the Impulsor is removed from the battlefield.*

Deep Strike
Each time this unit makes an ingress move (20.04), if every model in this unit has this ability, it can be set up anywhere on the battlefield that is more than 8" horizontally from all enemy units, even if that is within your opponent’s deployment zone.

Deployment Complete
Once this unit is set up on the battlefield and all units within it have disembarked, until the end of the battle, units cannot embark within this TRANSPORT.

Transport
This model has a transport capacity of 12 Adeptus Astartes Infantry models. It cannot transport Jump Pack, Wulfen, Gravis, Centurion, or Terminator models.

UNIT COMPOSITION

1 Drop Pod model.
