

ESPERN LOCARNO

NAVIGATOR OF HOUSE LOCARNO

IMPERIUM • NAVIS NOBILITE • ROGUE TRADER EXPLORERS

A disgraced Navigator of the Navis Nobilite, Locarno joined Janus Draik's expedition into the Blackstone Fortress seeking fortune and a way to restore his House's honour. His third eye pierces the warp — and, when pressed, can guide a killing bolt of psychic fire.

The Third Eye

Each time this model attempts to manifest Smite, you must select an enemy unit within 12" of and visible to this model before making the Psychic test — if there is none, it cannot attempt to manifest Smite this phase. If the power is successfully manifested, the unit you chose suffers the mortal wounds, even if another enemy unit is actually closer.

UNIT COMPOSITION

1 Espern Locarno model. This model is equipped with: 1 laspistol; 1 Force-orb cane.

Designer's Note. Espern Locarno is one of the founding explorers from the Blackstone Fortress (2018) boxed game, alongside Janus Draik, Neyam Shai Murad, and UR-025 — all of whom have real current 11e datasheets (Draik/Neyam/UR-025 as [Legends], confirmed 2026-08-31), but Locarno himself was dropped without any current-edition support. Stats are a direct port of his 8e/9e Blackstone Fortress catalogue profile (M6"/WS5+/BS5+/S3/T3/W3/A2/Ld7/Sv6+, 35pts): a fragile, low-combat-stat Navigator whose only real offense is a targeted Smite via The Third Eye. Psychic Barrier's 4+ invulnerable save preserved verbatim. Force-orb cane and Laspistol keep their original User-Strength/D3 and standard Laspistol profiles respectively, translated directly into modern weapon-table format. **11th-edition verification, 2026-08-31:** checked current 11e BSData directly — no match for "Locarno" anywhere; confirmed genuinely unsupported (Excel spreadsheet already had this flagged X from an earlier audit pass). New homebrew card built per explicit user request to fill this specific gap.
