

INDUCTII SQUAD

OLYMPIAN LEVY

LEGIONES ASTARTES • IRON WARRIORS • TRAITOR

Nobody pretends the Inductii are anything but the first wave — the Legion counts on them being spent, and every one of them knows it before they're ever handed a weapon.

Designer's Note. Built from the real HH3e digitized "Inductii" profile (`Iron Warriors.json`) — the same cheap horde-tier recruit archetype seen on the Sons of Horus and Thousand Sons rosters, real stat line and points structurally identical across all three Legions (M7/WS4/BS4/S4/T4/W1/A1/LD7/SAV3+, no invulnerable save). Priced identically at 90/170pts for 10/20. Built to Be Spent is an original ability reflecting this Legion's own real "Expendable(X)" rule family (seen directly on Perturabo's Sire ability and the Dominator Cohort's real profile) rather than a literal translation of a specific real rule on this exact unit — the Iron Warriors' entire real design philosophy treats Infantry attrition as a deliberate tool, and this ability makes that legible on the cheapest unit in the roster: it never breaks from losses, it just keeps fighting until it's gone.
