Al'Rahem fights like the desert storms of Tallarn — striking from where no enemy expected, then vanishing into the dunes before the foe can react. He duel-wields his plasma pistol and tribal power-sabre with the practiced grace of a desert raider.

ABILITIES

Core

Leader.

Faction

Voice of Command.

Leader

This model can be attached to one of the following units: **Cadian Shock Troops**, **Catachan Jungle Fighters**, **Krieg Combat Engineers**, **Tempestus Aquilons**.

"Like the Wind!" Order

Once per turn, in your Movement phase, you can issue the **Like the Wind!** Order to a friendly **Astra Militarum Infantry** unit within 6" of this model. Until the end of the turn, that unit can move as if it had the **Scouts 6"** ability AND its ranged weapons gain the **[ASSAULT]** ability. This is in addition to any other Orders issued by other Officers.

Tallarn Outflank

During deployment, instead of placing this model (and its attached unit, if any) on the battlefield, you can place it in Strategic Reserves. In your Movement phase, you can set up this unit anywhere on the battlefield more than 9" away from enemy models. This may be used from the first battle round (it does NOT require the standard wait for Reserves).

Bushido of the Sands

Each time the unit Al'Rahem leads **Advances** or **Charges**, you can re-roll the dice. This ability also applies if the attached unit benefits from the **Like the Wind!** Order this turn.

Designer's Note

Homebrew — 7th Ed source. Captain Al'Rahem was the Tallarn Desert Raiders' signature HQ choice across 3rd-7th Ed Codex: Imperial Guard / Astra Militarum. His 7th Ed identity rested on three pillars: (1) the "Like the Wind!" Order — whole army outflanks with him; (2) re-rollable charge / Run distance; (3) duel-wielding plasma pistol and power-sabre. This 10e conversion narrows the

army-wide outflank to a Reserves placement for his own unit (Tallarn Outflank) and an Order-driven move + Assault buff for nearby Infantry. The Bushido of the Sands re-roll preserves the "always faster than the foe" feel. Al'Rahem joins canonical Cadian/Catachan/Krieg/Tempestus squads since no Tallarn Infantry datasheet exists in 10e.
