INVULNERABLE SAVE 5+

RANGED WEAPONS

WEAPON	RANGE	A	BS	S	AP	D	KEYWORDS
Lascannon	48"	1	4+	12	-3	D6+1	—
Bolt gun	24"	2	4+	4	0	1	Rapid Fire 1
Flamer	12"	D6	N/A	5	0	1	Torrent Ignores Cover

The Cataphract carries three weapons spanning long, medium, and close range — one of each spectrum. The lascannon may be swapped for a similar-class heavy weapon (e.g. multi-melta, missile launcher); the bolt gun and flamer may each be swapped for like-class weapons (other bolter-pattern arms; other torrent or short-range area weapons).

MELEE WEAPONS

WEAPON	RANGE	A	WS	S	AP	D	KEYWORDS
Chassis strike	Melee	2	4+	6	0	1	—

The Cataphract has no dedicated melee armament — the chassis strike profile reflects the bulk of an armoured combat automata bearing down on whatever closes within reach.

ABILITIES

CORE

Deadly Demise D3

ATOMANTIC CORTEX SHIELDING

This model has a 5+ invulnerable save.

IMPLACABLE PROGRAMMING

This model automatically passes Battle-shock tests, and is unaffected by rules that would force it to Fall Back or leave the battlefield against its preprogrammed orders.

LINKED DOCTRINE

Each time this model is selected to shoot, if two or more of its ranged weapons target the same enemy unit, all attacks made by this model against that unit until the end of the phase have the [LETHAL HITS] ability.

CORTEX OVERRIDE VULNERABILITY

If there is no friendly **Adeptus Mechanicus Character** model within 12" of this model at the start of your Command phase, this model can only move toward the nearest visible enemy unit during its next Movement phase, and must attempt to charge if able.

EXPLODES (5+)

When this model is destroyed, roll one D6 before removing it from play; on a 5+ each unit within 6" suffers D3 mortal wounds.

DESIGNER'S NOTE

Homebrew — 1st Ed Rogue Trader (1987) lineage. The Cataphract from the *RT Compendium* carried three ranged weapons in distinct hardmounts (default: lascannon, bolt gun, flamer) and no dedicated melee armament — a deliberate design choice to make it the most weapon-versatile of the five Imperial battle robots, able to threaten armour at long range, infantry at medium range, and hordes at close range simultaneously. The Linked Doctrine ability rewards concentrating fire on a single priority target while still allowing flexible engagement when multiple threats present themselves. Lineage parallels the 30K Mechanicum *Domitar Pattern Vorax I* multi-weapon support automata, though the Cataphract is its own distinct chassis.
