RANGED WEAPONS (HEAVY WEAPON SLOT)

WEAPON	RANGE	A	BS	S	AP	D	KEYWORDS
Heavy autocannon	48"	3	4+	9	-1	2	—

The Compendium-era Crusader carried a shoulder- or hip-mounted heavy weapon in addition to its paired power swords. Default loadout shown; the heavy slot could be swapped for a lascannon, multi-melta, or missile launcher subject to the controlling Tech-Priest's preference.

MELEE WEAPONS

WEAPON	RANGE	A	WS	S	AP	D	KEYWORDS
Paired power swords	Melee	8	3+	7	-2	2	Twin-linked

One power sword in each oversized servo-arm — the Crusader's signature melee loadout since the original 1st Ed Compendium.

ABILITIES

Core

Deadly Demise D3

Atomantic Cortex Shielding

This model has a 5+ invulnerable save.

Implacable Programming

This model automatically passes Battle-shock tests, and is unaffected by rules that would force it to Fall Back or leave the battlefield against its preprogrammed orders.

Crusader Onslaught

This model can declare a charge in a turn in which it Advanced. In addition, each time this model makes a melee attack that targets a unit it charged this turn, an unmodified Wound roll of 5+ scores a Critical Wound.

Cortex Override Vulnerability

If there is no friendly **Adeptus Mechanicus Character** model within 12" of this model at the start of your Command phase, this model can only move toward the nearest visible enemy unit during its next Movement phase, and must attempt to charge if able.

Explodes (5+)

When this model is destroyed, roll one D6 before removing it from play; on a 5+ each unit within 6" suffers D3 mortal wounds.

Designer's Note

Homebrew — 1st Ed Rogue Trader (1987) lineage. The Crusader from the original *RT Compendium* carried paired power swords as its core melee armament, plus a shoulder-mounted heavy weapon (most commonly a heavy autocannon, with lascannon / multi-melta / missile launcher as documented swap-outs). It is the spiritual ancestor of the 30K Mechanicum *Castellax* Battle-Automata, which inherited the "pair of melee weapons + one heavy weapon" silhouette. This 10e build keeps the Crusader as a versatile brawler-shooter: aggressive in melee thanks to twin power swords and Crusader Onslaught, with the heavy autocannon for the approach. Cortex Override Vulnerability is preserved from RT-era lore.
