ABILITIES

The Warmaster's Will

At the start of your Command phase, select two The Warmaster's Will abilities. Until the start of your next Command phase, this model has those abilities.

Tactical Mastery [AURA]

While a friendly Sons of Horus unit is within 12", it counts as having double its OC for Objective control purposes and can re-roll Battle-shock tests.

Merciless Assault

Until the end of the turn, add 2 to the Attacks characteristic of all this model's melee weapons.

Warlord's Command

Once per battle round, you can target one friendly Sons of Horus unit within 12" with a Stratagem for 0 CP, even if that Stratagem has already been used this phase.

Sire of the Sons of Horus [AURA]

While a friendly Sons of Horus Infantry unit is within 6", that unit can re-roll hit rolls of 1 and wound rolls of 1 in melee. In the first Battle Round, Sons of Horus units can hold Objectives even while Battle-shocked.

Master of War

This model has the Fights First ability. Once per battle, at the start of any phase, this model can select any one Stratagem and use it for 0 CP, even if the conditions for its use are not yet met.

Dark Destiny

Once per battle, if this model would be destroyed, roll one D6: on a 2+, this model is not destroyed and instead remains with 1 wound remaining.
